

Camplite 5

'A well thought out tent'
Camping magazine
June 2008

Perfect for lightweight family camping and for those who want a roomy tent without moving to a larger family model. The Camplite 5 sleeps five in two adjacent bedrooms (which can be removed independently once pitched) and provides light, airy accommodation. The spacious living / porch area has a separate bathtub groundsheet and mud walls around the flysheet. There is a large window on the side door and useful storage pockets. The front door can be unzipped and rolled back.

Awning poles are available separately.
