

Trispace *NEW*

A purpose built, 3 person tunnel tent for group or centre use. The front two poles are 10.2mm alloy and the rear 9.5mm, providing durability and stability. Both entrances have 8 chain YKK zips to reduce clogging and the 10,000mm hydrostatic head groundsheet offers extra durability. The tent has excellent ventilation and several venting options are available using the back door. The large front porch provides ample room for kit storage and a polyethylene groundsheet for the whole tent plus porch area is also included. The ideal, durable tent for centre use.

TRISPACE
