

Terra Nova Titanium pegs

Weight: 6g each

How do you lighten the weight of your tent in one fell swoop? Change your normal tent pegs for titanium skewers. Terra Nova's Titanium tent pegs weigh a mere 6g each and you can buy packs of 6 for £15. These ultralight beauties will be the standard pegs in all Terra Nova lightweight tents this year.

These titanium skewer-type tent stakes - 6" long and 1/8" in diameter, are made from pure titanium for strength and light weight.

£15 pack of 6
