

SOLAR PHOTON 1

1. Unpack the flysheet and inner tent. Spread out the inner tent with black clips uppermost.
2. Unpack the pole, and carefully join each section together.
3. Insert the pole ends into the eyelets provided on the inner tent (at points a, b and c).
4. The pole set will now be standing over the inner tent. Attach the inner tent using the clips provided and peg out the inner tent corners.
5. Throw the flysheet over the inner tent and locate the 3 eyelets over the pole ends at points a, b and c.
6. Peg out the flysheet corners and guy ropes, and use the Velcro attachments on the underside of the flysheet to secure it to the pole.
7. Items included with the Solar Photon 1 tent:
 - 1 x Flysheet
 - 1 x Inner tent
 - 1 x alloy pole
 - 14 Titanium pegs.
