Description

The Hoolie 2 tent offers a huge amount of space for its weight and pack-size. Its porch is larger than similar tents on the market, making it ideal for group use and cycle touring.

In addition to the space, the tunnel design also makes it quick and easy to pitch. The inner is attached to the flysheet, so the tent pitches "as one", and it has colour-coded poles to help novice campers locate the poles in their sleeves. This is a perfect tent for Duke of Edinburgh participants who should be able to pitch camp quickly at the end of the day whatever the weather.

This 2 man tent includes plenty of ventilation, with vents under the hoods at each end (front vent can be adjusted). It uses reliable lightweight Superflex alloy poles and tried and tested Wild Country, high performance flysheet and groundsheet fabrics. Fully waterproof and taped fly and groundsheets provide great protection from the elements.

Groundsheet protectors (footprints) to prolong the life of the tent and help keep it clean can be purchased separately.

Features: Spacious. External pole sleeves. Tent pitches as one. Superflex Alloy poles. Waterproof. Taped seams. Zip covers. Condensation Management.

3 and 4 man versions of this tent are also available - the Hoolie 3 tent and Hoolie 4 tent.
