Description

1 man tent with tiny pack size

The Zephyros Compact 1 tent for 1 person is a good combination of low weight and reliable performance. The compact packed shape of just 30x18cm makes it an ideal lightweight tent for bike packing and cycle touring; fitting more easily into panniers and bags. Also popular with mountain marathon participants.

â–° The tent has been updated for SS20 and is now even easier to pitch and to pack away and has bright yellow guylines for better visibility.

â–° This 1 person tent has been designed for occasional backpacking, short to medium duration backpacking and cycling trips (for longer trips you may prefer a larger tent) and mountain marathons.

â–° Suitable for 3 season use, wild camping and campsite trips.

â–° The Zephyros Compact 1 tent pitches as one (the flysheet and inner pitch together) for speed and simplicity, it's even quicker to peg out with new combined flysheet and inner pegging points.

â–° A new side opening tarp style bag makes it easier to pack away when it's time to move on – simply roll the tent into the bag and pull the drawcord tight.

â–° It's based on the tried and tested Terra Nova Laser Competition design. Its low profile shape helps with its stability in poor weather.

â–° The lightweight tent comes with a Superflex alloy main pole which folds down to 30cm long, and folding Superflex alloy end poles and alloy 'v' angle pegs for a secure pitch.

â–° The high performance polyester flysheet and groundsheet are fully seam sealed for waterproof protection and the inner has a door which is half midge-proof mesh with a small mesh panel at each end of the inner tent to help with ventilation.

â–° The guylines and pole sleeve trims are reflective for better visibility when you return to your tent in poor light or dark conditions.

A 2 person version of the tent is available Zephyros Compact 2.

Footprints to prolong the life of the tent and help keep it clean can be purchased separately [Zephyros Compact 1 Footprint](#)
