## Description

### 2-man tent by Wild Country

The Zephyros Compact 2 person tent provides the combination of short packed length (30cm), low weight and weather-proof performance which makes it a popular choice with cycle tourers and bikepackers as well as backpackers and mountain marathon participants.

[Winner of the T3 Best Tent Awards 2020](#)

It's designed for short to medium length cycling, bike packing and backpacking trips (a larger tent might be more comfortable for longer trips), mountain marathons.

For 3 season use, the tried and tested low profile shape makes it suitable for wild camping as well as campsite stops.

It's even quicker to pitch than before thanks to the combined flysheet and inner pegging points. The flysheet and inner pitch together.

The main pole is Superflex alloy and it packs down to 30cm long. The folding end poles are glassfibre. Pegs are alloy 'v' angle for a secure pitch.

The flysheet and groundsheet are high performance polyester and fully seam sealed to keep out the wet.

There are several venting options – the inner has a half midge-proof mesh door and there are additional mesh panels with covers as at each end.

The tent has 2 doors to make access easier for both occupants. With one porch at the front of the tent plus a small amount of storage space under the flysheet at the rear.

Reflective pole sleeve trims ensure better visibility in poor light or dark conditions.

It's easy to pack away when it's time to move on with a side opening tarp style tent bag - simply roll the tent into the bag and pull tight.

A 1 person version of the tent is available the [Zephyros Compact 1](#)

Footprints to prolong the life of the tent and help keep it clean can be purchased separately [Zephyros Compact 2 Footprint](#).
