Description

1-person lightweight tent by Wild Country

The Coshee Micro is an ideal 1 man tent for anyone starting out camping and looking for reliability and performance on a budget.

• It is quick and easy to pitch with just 2 poles.

• The tent is erected with the flysheet and inner together, which also cuts pitching time and speeds up packing away when it's time to move on.

• The tunnel design is low profile which helps shed wind and provides good weather protection during 2 season use

• For the size of the tent, the full length door maximises the amount of porch space for storing gear.

• The tent comes with Wild Country Superflex alloy poles which are lightweight and provide superb strength and reliability.

• The high performance flysheet and groundsheet are tried and tested Wild Country fabrics which provide excellent protection from the elements and with taped seams the tent is guaranteed waterproof

• For those looking for a deluxe bivi the small pack size and low weight make this tent a good option.

For those who like the Coshee style but are looking for a slightly bigger tent for solo trips, take a look at the Coshee 2

Groundsheet protectors (footprints) can be purchased separately to prolong the life of the tent groundsheet and help keep it clean. Footprints also cover the porch area of the tent which helps keep gear protected and off the ground -[Coshee Micro Footprint](#).
