Combining fashion and function. stylish designs to protect against the elements

Natural Fibres Collection

Liner styles in silk and merino wool for those who prefer natural fibres

Cycle Collection

Designs using technical fabrics for cycling and mountain biking

Running Collection

Styles using lightweight, breathable materials for running and adventure racing

INTRODUCTION

extremities® has been designing clothing accessories for over 25 years, building an enviable reputation for offering the best protection in the worst conditions. extremities® hats, gloves, socks and gaiters have been put to the test by record breaking explorers and athletes, and are tried and trusted by customers worldwide.

The range is one of the largest available. The AW13 collection is the most extensive yet, with products for every outdoor enthusiast; from occasional walkers to experienced mountaineers, runners and cyclists or those just looking for stylish products for everyday use. The women's and junior ranges, styled and sized specifically for their wearers, mean all members of the family are catered for.

extremities® offers 'best in class' innovation and performance, employing the latest fabric and fibres technology including its own materials development. For AW13 extremities will be the first to market with gloves using WL Gore's new WINDSTOPPER® technology.

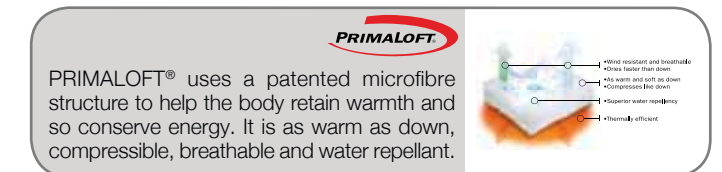

POINT OF SALE MATERIAL

A range of POS material is available to promote extremities® product in store. Please speak to your account manager for more information as this just an example of what is available.

Header Boards for Slat Walling

Modular Mesh Stands (size 185cm tall x 60cm wide)
Branded Corrugate stands – sizes vary

Polypropylene is very durable, it also has the lowest thermal conductivity of all fibres and the lowest moisture regain coefficient. This means it is very warm and high wicking, making it ideal for liner and mid layers. extremities has developed exclusive polypropylene fabrics and knits for its range.
