The Best Protection

Our **extremities**® clothing accessories range has been synonymous with quality and performance for over 25 years, with an enviable reputation for providing the best protection in the worst conditions.

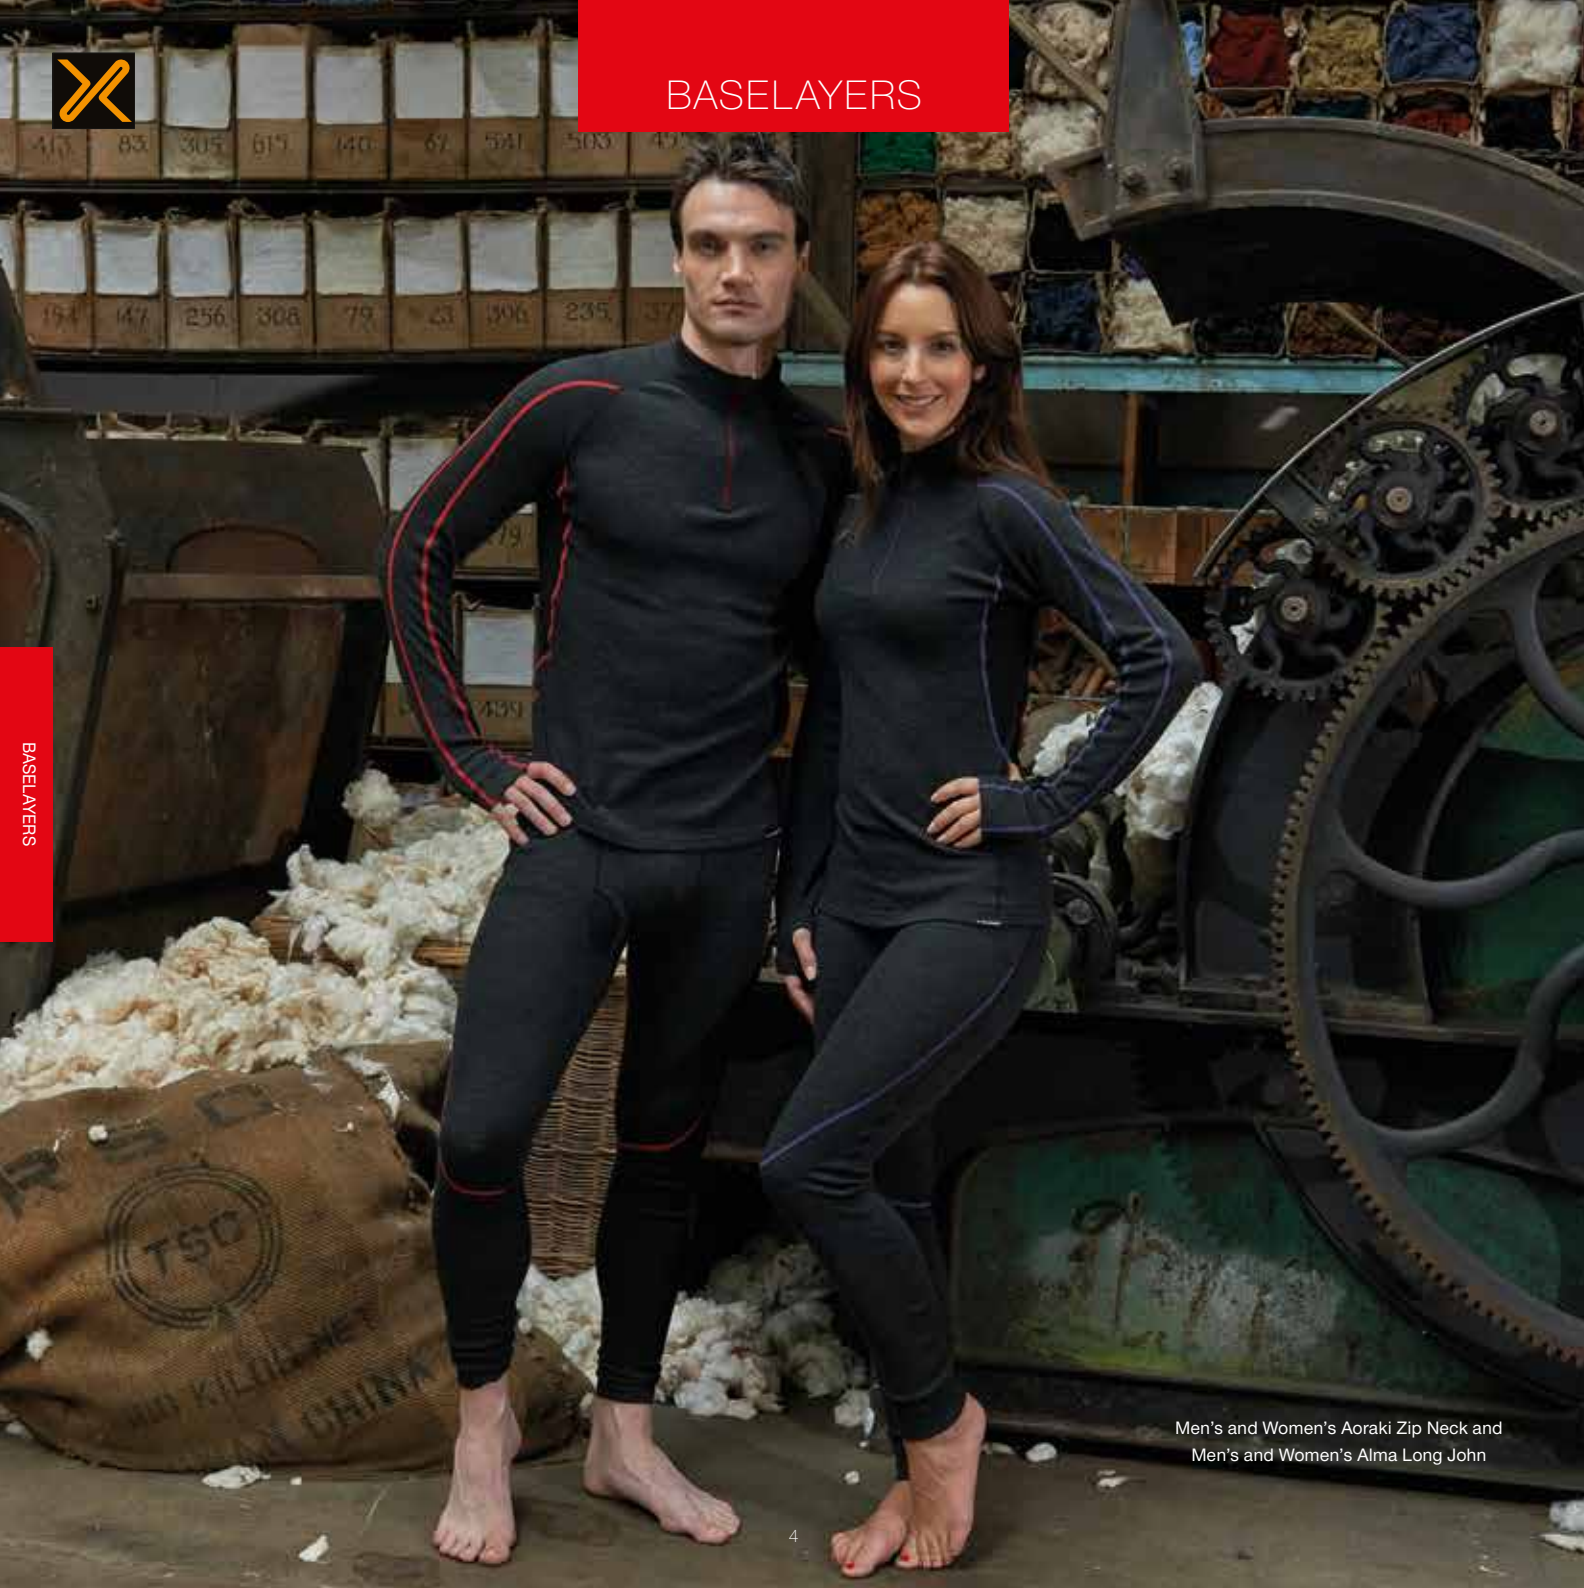

Over the years, **extremities**® hats, gloves, socks and gaiters have been put to the test by explorers and record breaking athletes as well as being tried and trusted by customers worldwide. Our commitment to the quality of the products we develop and the service we provide is also demonstrated by our ISO9001 accreditation.

A stylish range of comfortable baselayers, made from extra fine Australian Merino wool, is new for AW15. Our performance lifestyle headwear has been expanded and the comprehensive range will appeal to those looking for attractive, fashionable hats which are truly functional. Our core range of thermal, windproof and waterproof gloves and headwear has also been updated to provide a fresh new look and greater potential for the brand.

From mountaineers to occasional walkers, runners and cyclists or those simply looking for stylish everyday accessories that perform, the **extremities**® range has a product for everyone.

Elasticated waistband for
comfort and fit

Jersey back necktape binding
for extra comfort

Raglan sleeve
for extra movement

Mesh side panel for
improved breathability
No side seam to
prevent chaffing

Thumb loops for extra warmth

Merino wool is naturally breathable and helps regulate your body temperature - keeping you warm in winter and releasing body heat and moisture to keep you cool and dry during exercise or hot weather. Wool baselayers are warmer than synthetic and retain heat even when wet. Merino fibres are like coiled springs. This natural elasticity allows baselayers to move with you, keeping their shape and avoiding wrinkles. The complex chemical structure of Merino wool locks away unpleasant odour molecules creating effective odour control, meaning Merino clothes will remain fresher for longer than cotton or synthetic garments - a further benefit for active sports use. Merino wool absorbs UV radiation providing protection from the sun.

100% Australian Merino wool
Extra fine 19.5 microns
200g / m2
Anti-mulesing sourced wool
Anti-shrinkage treatment

All tops have been designed with:
Mesh side panels with no side seam
Flat lock stitching

FABRIC TECHNOLOGY

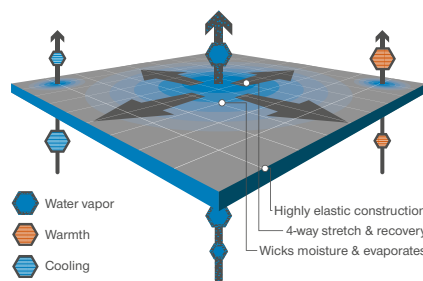

POLARTEC® POWER STRETCH® PRO™ 4 times more wind resistant than traditional fleece and provides extra warmth without weight, as well as being water repellent and breathable.

PRIMALOFT® uses a patented microfibre structure to help the body retain warmth and so conserve energy. It is as warm as down, compressible, breathable and water repellent.

POLARTEC® POWER STRETCH® fabric has 4-way stretch properties - hugging the skin to keeping you dry by wicking sweat away. It is also highly breathable, and wind resistant.

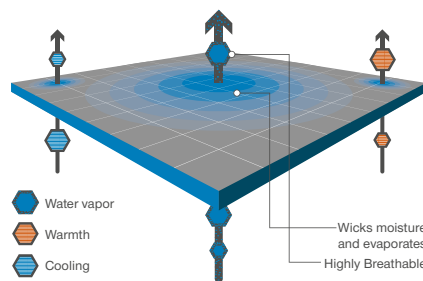

Different weights of Primaloft® One explained

We use different weights of Primaloft® One depending on the conditions the products are designed for:

- 3oz: The lightest and most flexible insulation we use, for maximum dexterity
- 5oz: A standard single layer insulation, suitable for most conditions
- 6oz: A double layer of 3oz insulation
- 10oz: A double layer of 5oz insulation for severe conditions
- 13oz: A triple layer of insulation, for protection in the most extreme conditions

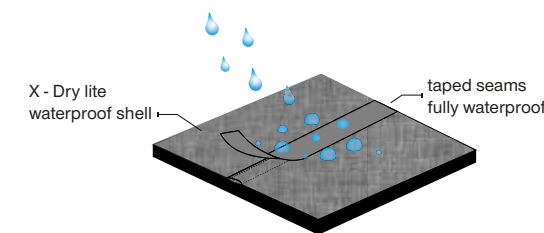

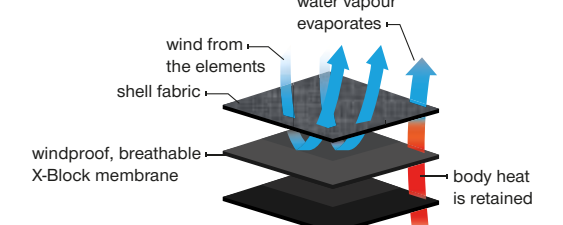

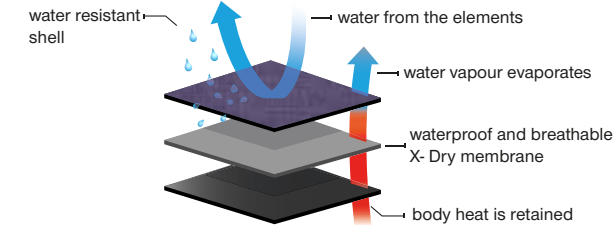

POLARTEC® POWER DRY® keeps you dry when you sweat by picking up moisture and moving it away from the skin. It's also highly breathable, quick drying, and comfortable.

Polypropylene

Polypropylene is very durable, it also has the lowest thermal conductivity of all fibres and the lowest moisture regain coefficient. This means it is very warm and high wicking, making it ideal for liner and mid layers. extremities® has developed exclusive polypropylene fabrics and knits for its range.

FABRIC TECHNOLOGY

Merino Wool

Merino Wool has good thermal, wicking and antibacterial properties. It absorbs up to a third of its weight in water but still retains warmth when wet. Merino Wool is one of the finest wools making it suitable for people with more sensitive skin, fibres with a thickness of only 20 microns are used in extremities® products.

Dry Stretch Waterproof Technology

Fashioned from extremities® Power Liner fabric, with a fully waterproof, breathable membrane, the Dry Stretch range provides a perfect blend of comfort and performance. Available in Standard, Sticky and Thermal variations there is a Dry Stretch option to suit most outdoor enthusiast's needs.

Power Liner

Power Liner provides a high quality knit, great thermal properties and outstanding moisture management characteristics. Its high stretch, close fitting performance is combined with a soft fleecy back for maximum comfort. A great value option for gloves, hats and neck tubes.

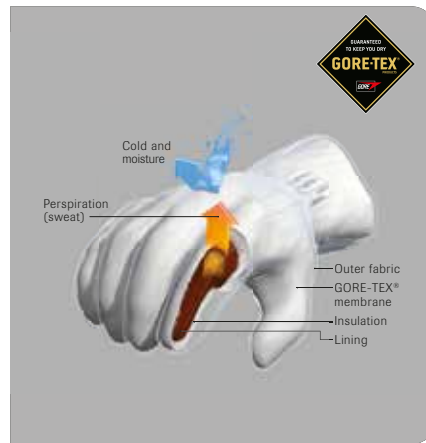

FABRIC TECHNOLOGY

GORE-TEX® Gloves

Waterproof, windproof, and highly breathable.

Gloves engineered with GORE-TEX® inserts are the ideal solution for all kinds of winter sports: **durably waterproof, windproof** and **breathable** – guaranteed. Your hands stay warmer when it's cold, and drier when you perspire.

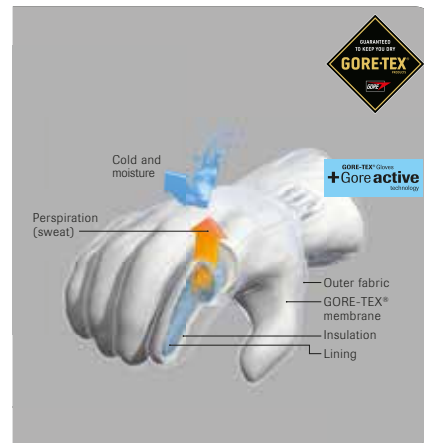

GORE-TEX® Gloves

+ Gore **active** technology

Drier. Longer. Waterproof and breathable.

Gloves engineered with GORE-TEX® inserts + Gore active technology are durably waterproof, windproof and breathable – guaranteed. The whole system of inner lining, membrane and outer material is optimized for extreme breathability. This increases the level of comfort even in a wider range of activity levels.

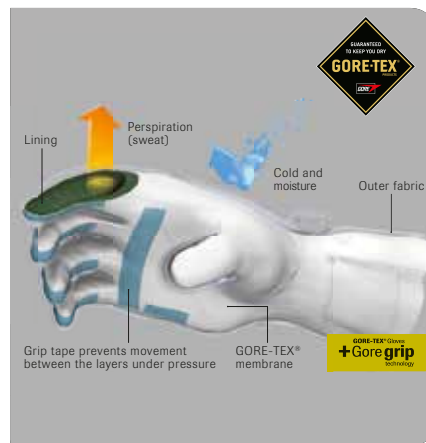

GORE-TEX® Gloves

+ Gore **grip** technology

Outstanding tactility. Sure Grip. Waterproof and breathable.

Gloves engineered with GORE-TEX® inserts + Gore grip technology are durably waterproof, windproof and breathable – guaranteed. Thanks to their innovative layered construction, they provide outstanding dexterity and tactility for an optimum grip. This makes it easier to handle your ski poles, zippers, goggles, bags, etc.

GORE-TEX® Gloves

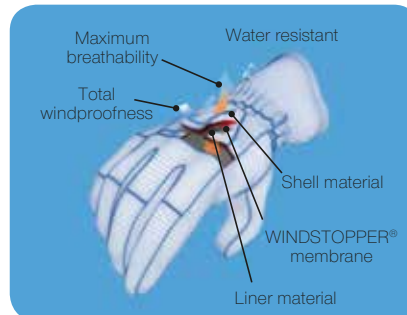

+ Gore **warm** technology

Warmer. Longer. Waterproof and breathable.

Gloves engineered with GORE-TEX® inserts + Gore warm technology are durably waterproof, windproof and breathable – guaranteed. Even in harsh conditions the whole system of inner lining, membrane and outer material is optimized to keep your hands warmer for longer.

The WINDSTOPPER® membrane system provides a windproof barrier that is extremely breathable. It prevents cold winds from cutting through the fabric but allows the body heat to ventilate.
