- 58-59 Gaiters
- 60-64 Fabric Technology
- 65-67 Point of Sale Material

extremities®

The Best Protection

Extremities® was developed in the 1980s to fill a gap in the market for dedicated clothing accessories that protected the extremities of the body in the worst possible conditions. It became the choice specialist range of head, hand and foot protection for mountain and polar expeditions.

For over 35 years our gloves, hats, gaiters and socks have evolved to provide a wider selection of styles suitable for anyone venturing outdoors. **Extremities®** clothing accessories have been put to the test by explorers and record breaking outdoor athletes who have taken them to the ends of the earth and some of the most extreme places on the planet as well as on the school run and daily commute.

We are an accessories specialist focusing purely on gloves, hats gaiters and socks. We pride ourselves on our technical understanding of fabrics and materials and how they work best in clothing accessories. We invest in stock enabling us to fulfil in-season orders in addition to pre-orders, with many styles available all year round. Sell through in store is supported with a comprehensive range of POS. We are committed to the quality of the products we develop and the service we provide.

From mountaineers to walkers, runners, cyclists, anglers and country sports enthusiasts or those simply looking for stylish everyday outdoor accessories that perform, the **Extremities®** range has a product for everyone and every day.

FABRIC TECHNOLOGY

PRIMALOFT.

PrimaLoft® Gold Insulation is the go-to choice for adventurers looking for protection in extreme conditions. Microfibers trap body heat to make this the most thermally-efficient synthetic insulation available, with water-repellency that insulates even in the wettest weather – maintaining 98% of warmth when wet.

Different weights of PrimaLoft® Gold Insulation explained

We use different weights of PrimaLoft® Gold Insulation depending on the conditions the products are designed for:

- 3oz: The lightest and most flexible insulation we use, for maximum dexterity
- 5oz: A standard single layer insulation, suitable for most conditions
- 6oz: A double layer of 3oz insulation
- 10oz: A double layer of 5oz insulation for severe conditions
- 13oz: A triple layer of insulation, for protection in the most extreme conditions

PrimaLoft® Performance Fabric

ENERGY SERIES

PRIMALOFT.

RESILIENT &
DURABLE

ACTIVE. TRANSITIONAL. COMFORTABLE.

Because life doesn't stand still, the PrimaLoft® Performance Fabric Energy Series introduces a line of fabrics that have been designed to move with you and retain their shape throughout all levels of activity. Engineered to provide long-lasting, high levels of comfort and performance when life has you on the go, the PrimaLoft® Energy Series will be with you every step of the way

- Polyester or Nylon Face for Increased Resistance to Pilling and Abrasion
- Four-Way Stretch Provides Maximum Comfort
- Reliable Shape Recovery
- Highly Breathable
- Unmatched Softness and Hand-Feel
- Dependable Warmth without the Weight
- Low Moisture Absorption for Fast Dry Times

THE RESULT:

The PrimaLoft® Performance Fabric Energy Series supports your active lifestyle, keeping you comfortable and dry during a wide-range of activity levels.

Merino Wool

Merino Wool has good thermal, wicking and antibacterial properties. It absorbs up to a third of its weight in water but still retains warmth when wet. Merino Wool is one of the finest wools making it suitable for people with more sensitive skin, fibres with a thickness of only 20 microns are used in extremities® products.

FABRIC TECHNOLOGY

X DRY
by extremities®

Reflective prints and yarns provide an added safety feature in the dark or low light conditions. The reflective effect is achieved through the use of micro glass beads which collect light, focus it and bounce it back to the light source.

The reflective element lights up for the person with the light source or who is in line with it. The quality of the reflective elements is specified to achieve the required level of visibility and products are designed to provide 360° reflection where feasible.

X DRYSTRETCH
by extremities®

Power Liner

Power Liner provides a high quality knit, great thermal properties and outstanding moisture management characteristics. Its high stretch, close fitting performance is combined with a soft fleecy back for maximum comfort. A great value option for gloves, hats and neck tubes.

X BLOCK
by extremities®

Ultra Liner Fleece

Ultra liner fabric is a lightweight, packable grid fleece which provides a high warmth to weight ratio. A great layering fabric when cold and ideal for high energy activities. The grid construction means air flows more easily through the channels, providing good breathability while the squares trap warmth.

FABRIC TECHNOLOGY

GORE-TEX GLOVES GORE ACTIVE TECHNOLOGY

DRIER. LONGER.
WATERPROOF AND BREATHABLE.

TECHNICAL FEATURES

- ▶ Durably waterproof, windproof and highly breathable.
- ▶ The whole system of inner lining, membrane and outer material is optimized for enhanced breathability and extremely breathable.

CONSUMER BENEFITS

- ▶ Reliable protection against rain, snow and wind.
- ▶ Even during heavy exercise sweat can easily escape from the inside.
- ▶ Enduring weather protection and comfort, balanced heat transfer and optimum moisture management.

GORE-TEX GLOVES GORE PLUS WARM TECHNOLOGY

WARMER. LONGER.
WATERPROOF AND BREATHABLE.

TECHNICAL FEATURES

- ▶ Durably waterproof, windproof and breathable.
- ▶ Water stays on the outside while perspiration can easily escape from the inside.
- ▶ The whole system of inner lining, membrane and outer material is engineered to enable higher insulation performance.

CONSUMER BENEFITS

- ▶ Reliable protection against rain, snow and wind.
- ▶ Warm hands for longer, even in harsh conditions.

FABRIC TECHNOLOGY

GORE-TEX GLOVES GORE GRIP TECHNOLOGY

OUTSTANDING TACTILITY. SURE GRIP.
WATERPROOF AND BREATHABLE.

TECHNICAL FEATURES

- ▶ Durably waterproof, windproof and breathable.
- ▶ A special layered construction attaches the loose layers of the glove to each other, preventing movement between them.

CONSUMER BENEFITS

- ▶ Reliable protection against rain, snow and wind.
- ▶ Better dexterity for handling zippers, goggles, bags, etc.
- ▶ Optimum tactility for a sure grip.
- ▶ Durable waterproofness for optimum protection.
- ▶ Enduring weather protection and comfort, balanced heat transfer and optimum moisture management.
