REDEFINE YOUR LIMITS

Extremities® have been designing and manufacturing high-quality clothing accessories since the 1980s. Using tried and tested materials, **Extremities®** products perform in some of the most extreme conditions, keeping you protected in every possible environment. For over 40 years our gloves, hats, gaiters and socks have evolved to provide a wider selection of styles suitable for anyone venturing outdoors.

Extremities® clothing accessories have been put to the test by explorers and record breaking outdoor athletes, who have taken them to the ends of the earth and in some of the most extreme places on the planet.

Sustainability

Our mission is to produce sustainable high-performance outdoor accessories, all while reducing our environmental impact. For the last few years, we've been taking imperative steps to reduce our carbon footprint by removing unnecessary packaging on our products and introducing recycled technology across our ranges.

For autumn/winter 2024, we're thrilled to launch a range of Extremities products in recycled fabrics. All recycled fabric products are labelled X-Eco throughout the brochure, and we aim to roll this out across more ranges in the coming years. We're also thrilled to announce that all X-Dry inserts are made

from 100% recycled materials and are completely PFC-free.

We're continuously working on our sustainability pledge and look forward to progressing further as we develop ways to offer the best quality fabrics with an eco-friendly approach.

Shell: 80% Recycled Nylon, 10% Neoprene, 10% Polyester

Palm: 58% Leather, 15% Recycled Nylon, 10% Neoprene, 10% polyester, 7% TPU Lining: 100% Polyester

Sizes **XS, S, M, L, XL, XXL**

Code **21BWG**

PRIMALOFT.

PrimaLoft® Gold Eco Insulation is the go-to choice for adventurers looking for protection in extreme conditions.

Different weights of PrimaLoft® Gold Insulation explained

We use different weights of PrimaLoft® Gold Insulation depending on the conditions the products are designed for:

3oz: The lightest and most flexible insulation we use, for maximum dexterity

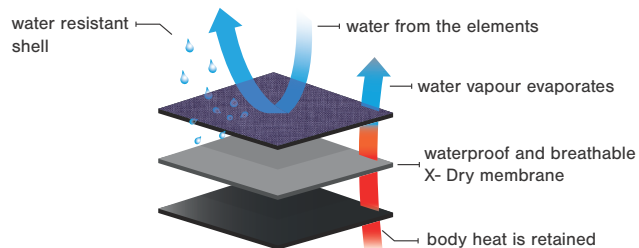

5oz: A standard single layer insulation, suitable for most conditions

6oz: A double layer of 3oz insulation

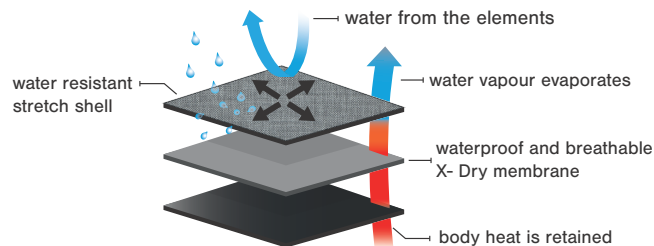

10oz: A double layer of 5oz insulation for severe conditions

13oz: A triple layer of insulation, for protection in the most extreme conditions

THERM by extremities®

Reflective prints and yarns provide an added safety feature in the dark or low light conditions. The reflective effect is achieved through the use of micro glass beads which collect light, focus it and bounce it back to the light source.

The reflective element lights up for the person with the light source or who is in line with it. The quality of the reflective elements is specified to achieve the required level of visibility and products are designed to provide 360° reflection where feasible.

- Repreve® is a fibre made from recycled plastic bottles and post-industrial waste
- Available in Repreve® polyester and Repreve® nylon
- Made from 100% recycled materials

X-Eco

X-Eco products are made from at least 90% recycled fabric

Ultra Liner Fleece

Ultra liner fabric is a lightweight, packable grid fleece which provides a high warmth to weight ratio. A great layering fabric when cold and ideal for high energy activities. The grid construction means air flows more easily through the channels, providing good breathability while the squares trap warmth.

Power Liner

Power Liner provides a high quality knit, great thermal properties and outstanding moisture management characteristics. Its high stretch, close fitting performance is combined with a soft fleecy back for maximum comfort. A great value option for gloves, hats and neck tubes.

100% PURE / NATURAL
MERINO

Merino Wool

Merino Wool has good thermal, wicking and antibacterial properties. It absorbs up to a third of its weight in water but still retains warmth when wet. Merino Wool is one of the finest wools making it suitable for people with more sensitive skin, fibres with a thickness of only 20 microns are used in extremities® products.

GORE-TEX GLOVES GORE ACTIVE TECHNOLOGY

DRIER. LONGER.
WATERPROOF AND BREATHABLE.

TECHNICAL FEATURES

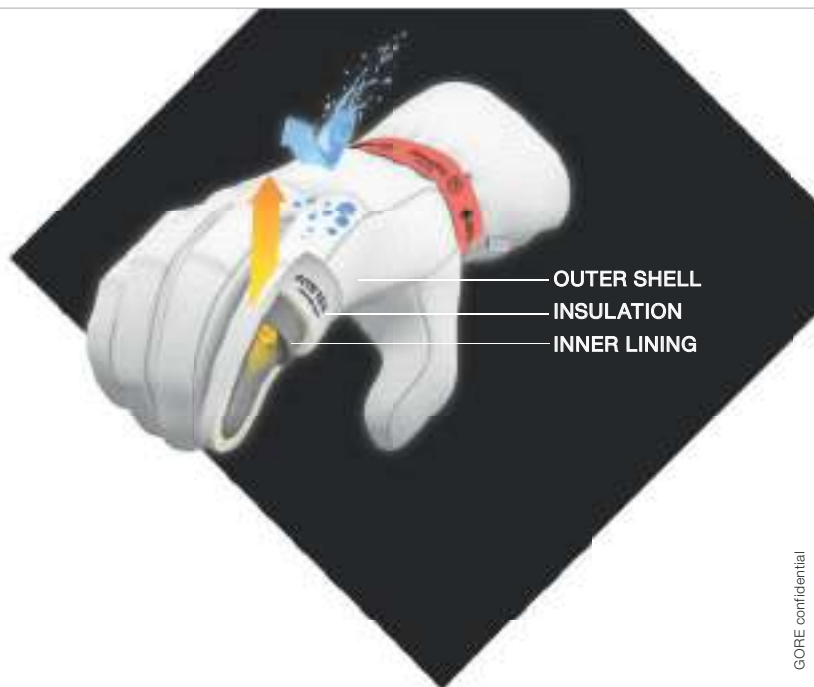

- ▶ Durably waterproof, windproof and highly breathable.
- ▶ The whole system of inner lining, membrane and outer material is optimized for enhanced breathability and extremely breathable.

CONSUMER BENEFITS

- ▶ Reliable protection against rain, snow and wind.
- ▶ Even during heavy exercise sweat can easily escape from the inside.
- ▶ Enduring weather protection and comfort, balanced heat transfer and optimum moisture management.

© 2018 W. L. Gore & Associates, GmbH. GORE-TEX, GORE, GUARANTEED TO KEEP YOU DRY and designs are trademarks of W. L. Gore & Associates.

GORE-TEX GLOVES GORE PLUS WARM TECHNOLOGY

WARMER. LONGER.
WATERPROOF AND BREATHABLE.

TECHNICAL FEATURES

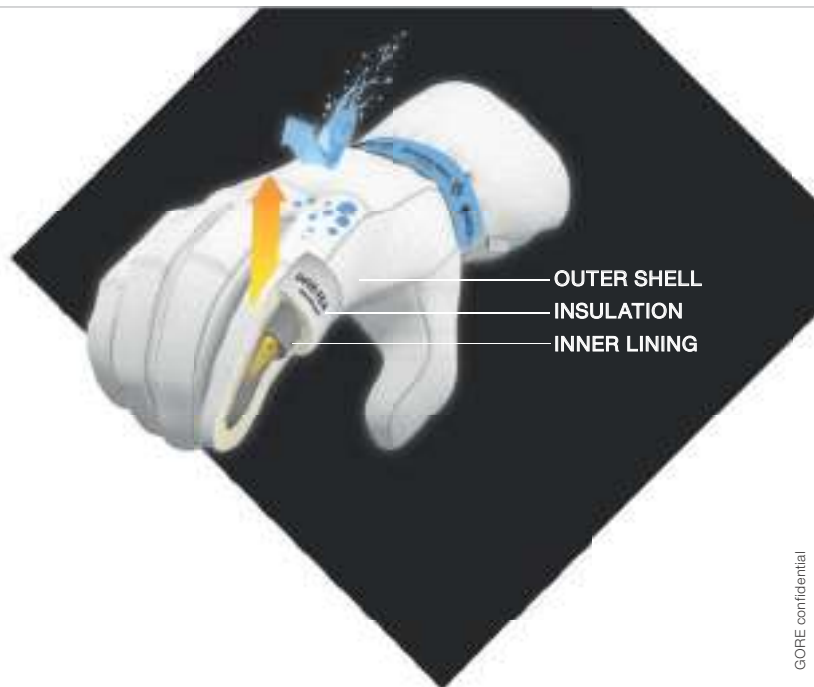

- ▶ Durably waterproof, windproof and breathable.
- ▶ Water stays on the outside while perspiration can easily escape from the inside.
- ▶ The whole system of inner lining, membrane and outer material is engineered to enable higher insulation performance.

CONSUMER BENEFITS

- ▶ Reliable protection against rain, snow and wind.
- ▶ Warm hands for longer, even in harsh conditions.

GORE-TEX INFINIUM™ WINDSTOPPER® HEADWEAR AND ACCESSORIES

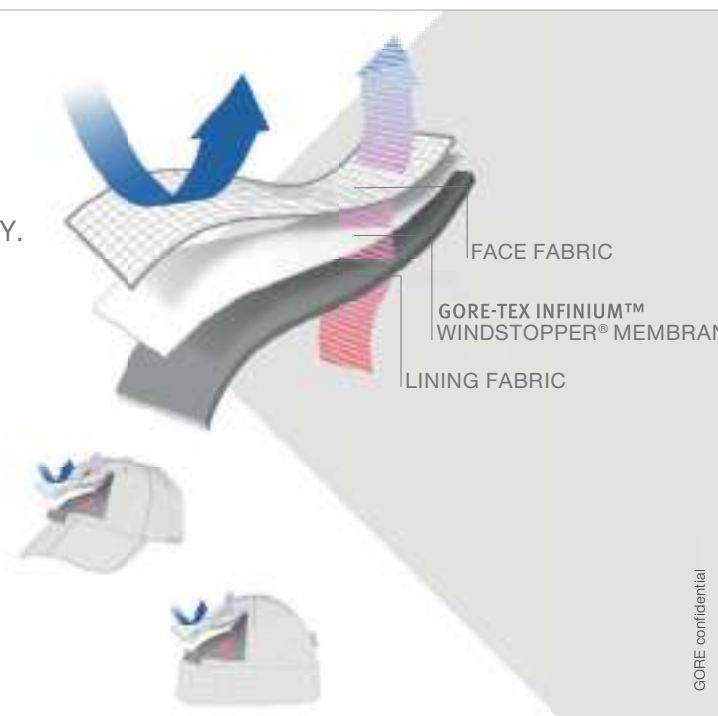

TOTAL WINDPROOFNESS. MAXIMUM BREATHABILITY.

TECHNICAL FEATURES

- ▶ Totally windproof and extremely breathable.
- ▶ Wicking moisture management linings.

CONSUMER BENEFITS

- ▶ Warmth thanks to windproof material.
- ▶ Excellent moisture management and high breathability.
- ▶ Optimized skin comfort.
