N O V A
EQUIPMENT

Terra Nova® has a long history of producing some of the world's best outdoor gear. Terra Nova® products are tried and tested in our lab and in some of the most extreme environments on the planet. Our 'Best in Class' design ethos drives an ambition to develop and use some of the best components and materials available. Our commitment to quality is also demonstrated by our ISO9001 accreditation. The result is award winning products which are pushed to the limits by outdoor enthusiasts. Terra Nova® is the brand of choice for most outdoor professionals across the world.

Terra Nova's heritage has been in mountain tents including the iconic Quasar. More recently it has developed an enviable reputation for designing extremely lightweight kit, including the lightest tents in the world, packs and sleeping bags.

by Terra Nova

Wild Country® camping products from Terra Nova Equipment are designed for customers seeking the perfect combination of reliability, simplicity of use and great value. Taking some of the design and quality standards from Terra Nova®, the products are used by everyone from the serious user to first time campers and families to escape into the outdoors.

Ultra Series

Our ULTRA range boasts the lightest tents in the world and is designed for those who want to save every gramme of weight. Now comprising free-standing and tunnel tent models, rucksacks and a tarp. Each product is specifically tailored to provide the lightest solution possible. Ideal for ultra-lightweight mountain marathons and similar events.

Polar Series

The Polar series of tunnel tents offers a high degree of strength and durability for severe environments. In them we believe we have created the strongest and most durable tunnel tent available.

Despite the low weight of the Polar Lite models, the structure of these 3 tents gives the highest level of weather performance. With Reflex T6 7001 and DAC alloy poles, coupled with super streamlined profiles and Watershed flysheet fabric, each design offers great elemental protection. Polar Storm models have a flysheet with superior abrasion resistance and over 1000n of tensile strength. These are tunnel tents which offer true piece of mind for those venturing into the wild.

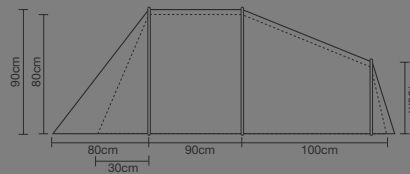

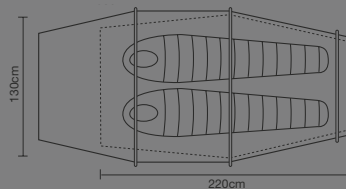

Polar Lite 2 Micro

Best in
Test
Trail
Magazine

- Less than 1kg per person
- Low profile rear pole
- Three pole design for high stability
- Perfect for fast, light backpacking trips requiring extra strength
- Perfect wind cheating shape
- 8 chain zips

Hydrostatic head is tested to British Standards.*Tent comes supplied with more than one type of peg, see individual tent page for details.

Fabrics

ULTRA

Ultra fabric is constructed from a UHMWPE mat, laminated on each side with a very thin high performance polymer coating. The UHMWPE patented mat is up to 25% stronger and only half the weight of many traditionally woven siliconised ripstop nylons. The material also retains a higher proportion of its strength and water resistance even after UV weathering exposure. Wherever possible we bond rather than sew Ultra fabric. Bonding the seams offers higher tensile strength, lighter weight construction, and in long term tests, a high degree of resistance to UV weathering.

Watershed Si2

Watershed Si2 is a silicon / silicon coated nylon flysheet fabric designed to withstand better the effects of UV light. Dyestuffs are treated to provide enhanced UV protection and UV coating inhibitors help reduce the degrading effects of UV light. Different constructions, yarn types, and fabric weaves are used to provide the best performance for specific tent models.

Watershed

First developed by Terra Nova® in 1992, Watershed was the first Silicone / PU coating hybrid for flysheets, designed to offer enhanced water resistance and withstand better the effects of UV light. Dyestuffs are treated to improve UV protection and UV coating inhibitors help reduce the degrading effects of UV

light. Watershed has evolved with a specialist PU coating with extra Hydrolysis resistance, this improves water resistance and gives extra grip to seam sealing tape providing a fully waterproof seam. Different weights and weave of fabric are used to provide the best performance for specific tent models.

Waterbloc

Waterbloc fabrics, generally used in Terra Nova® groundsheets, have been developed to be extremely water resistant. A highly specified PU provides maximum resistance to hydrolysis action. Nylon is widely used for Terra Nova® groundsheets and flysheets due to the excellent chemical and mechanical bond it provides with the coating systems. Different weights and weave of fabric are used to provide the best performance for specific tent models.

Poles

DAC Poles

All DAC poles are extruded 7001 T6 aluminium alloy. DAC NSL are the lightest type of DAC pole. This is achieved by swaging both ends of the pole section. DAC Green Anodising used on NSL POLES is a more environmentally friendly anodising process achieved through water recycling and the choice of chemicals.

Terra Nova® Reflex Poles

Reflex poles are 7001 T6 extruded aluminium alloy poles specified by Terra Nova®

Zephyros Series

Designed to be used as regular backpacking tents, the Zephyros models give high space-to-weight ratios, at affordable prices. New for this year, Zephyros 3 Living adds a new space dimension for cycle touring or weekend campsite use.

Zephyros 1

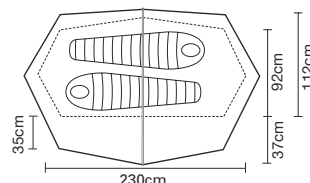

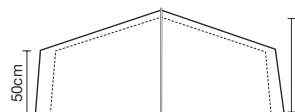

- Pitches 'as one' quickly and easily
- Stable tunnel design with external pole system
- Superflex alloy pole
- Lots of space
- Low weight and great value
- Proven design

Sleeps	1
Weight	1.41kg / 1.57kg (min/max) 3lb 2oz / 3lb 7oz (min/max)
Pack Size	52cm x 14cm
Range	3 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm WC Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 44Z1

UPDATED Zephyros 2

- Updated with addition of rear door
- Pitches 'as one' quickly and easily
- Stable tunnel design with external pole system
- Lots of space
- Low weight and great value
- Proven design

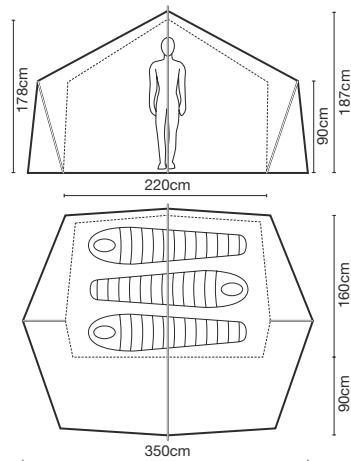

Sleeps	2
Weight	1.65kg / 1.81kg (min/max) 3lb 10oz / 4lb (min/max)
Pack Size	57cm x 14cm
Range	3 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm WC Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	4 x Black Reflective
Inner Door	Half Mesh

Code: 44Z2

NEW Zephyros 3 Living

- Taller, 3 person version of the Zephyros 2
- Ideal for campsite use
- Nearly 180cm / 6' tall
- Small back door for better access and ventilation
- Large porch for storage and living space
- Superflex T6 alloy poles
- Small pack size

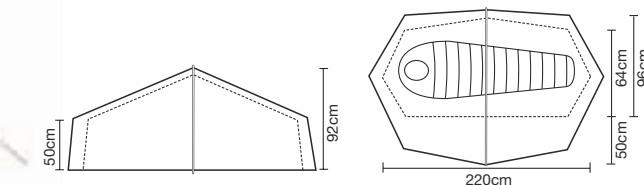

Sleeps	3
Weight	3.7kg / 4.2kg (min/max) 8lb 2oz / 9lb 4oz (min/max)
Pack Size	55cm x 22cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	14.5mm Superflex Alloy / 10.5mm Superflex Alloy
Pegs	24 Alloy 'V' Angle
Guylines	18 x Black reflective
Inner Door	Third Mesh

Code: 44Z3

Zephyros 1 Lite

- Pitches 'as one' quickly and easily
- Stable tunnel design with external pole system
- Superflex alloy pole
- High spec R/S polyester fabrics
- Super lightweight and great value
- Proven design

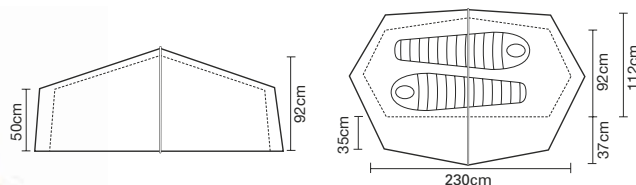

Sleeps	1
Weight	1.15kg / 1.25kg (min/max) 2lb 8oz / 2lb 12oz (min/max)
Pack Size	45cm x 14cm
Range	3 Season
Flysheet	Stormtex P4000si
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	8 Alloy 'V' Angle, 2 Skewer
Guylines	4 x Yellow Reflective
Inner Door	Half Mesh

Code: 44ZL1

Zephyros 2 Lite

- Pitches 'as one' quickly and easily
- Stable tunnel design with external pole system
- Superflex alloy pole
- High spec R/S polyester fabrics
- Super-lightweight and great value
- Proven design

Sleeps	2
Weight	1.30kg / 1.40kg (min/max) 2lb 14oz / 3lb 1oz (min/max)
Pack Size	45cm x 16cm
Range	3 Season
Flysheet	Stormtex P4000si
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	8 Alloy 'V' Angle, 2 Skewer
Guylines	4 x Yellow Reflective
Inner Door	Half Mesh

Code: 44ZL2

Coshee Series

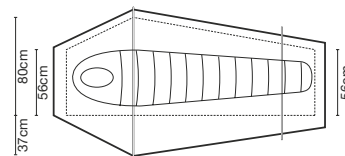

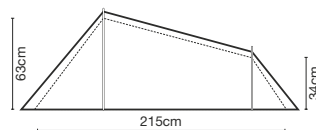

With 3 new models for 2015, the Coshee range truly represents great value for money for occasional or first time campers. Coshee models are easy to pitch and have a small pack size making them an indispensable part of your camping equipment.

NEW Coshee Micro

- Ideal starter tent for 1
- Use as a deluxe bivi
- Low wind cheating shape for good weather protection
- Copious porch space and 1 door
- Superflex T6 alloy poles
- Low weight/small pack size

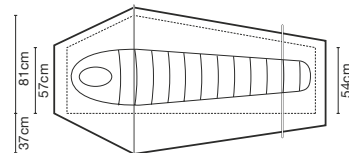

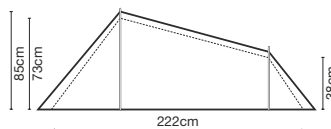

Sleeps	1
Weight	1.2kg / 1.4kg (min/max) 2lb 10oz / 3lb 1oz (min/max)
Pack Size	36cm x 14cm
Range	2 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	9 x Round Pin Steel
Guylines	2 x Black Reflective
Inner Door	Half Mesh

Code: 44COM

NEW Coshee 1

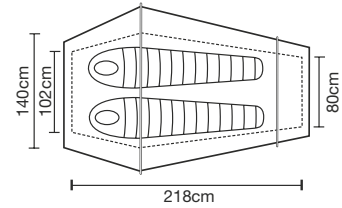

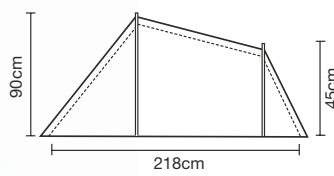

- Great value
- Ideal for single occupancy backpacking trips
- Weather cheating profile
- Good size porch with 1 door
- Superflex T6 alloy poles
- Easy to pitch

Sleeps	1
Weight	1.3kg / 1.55kg (min/max) 2lb 14oz / 3lb 5oz (min/max)
Pack Size	38cm x 14cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	9 x Round Pin Steel
Guylines	2 x Black Reflective
Inner Door	Half Mesh

Code: 44CO1

Coshee 2

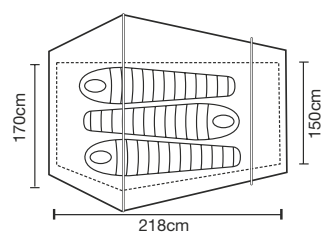

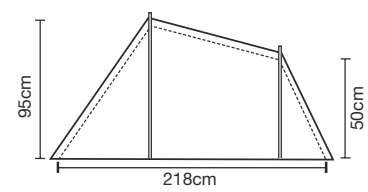

- Great value
- Weather cheating profile
- Superflex T6 alloy poles
- Great ventilation for comfort
- 2 doors for easy access
- Low weight/small pack size

Sleeps	2
Weight	1.90kg / 2.00kg (min/max) 4lb 3oz / 4lb 6oz (min/max)
Pack Size	42cm x 14cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	6 x Black Reflective
Inner Door	Half Mesh

Code: 44CO2

Coshee 3

- Great value
- Weather cheating profile
- Superflex T6 alloy poles
- Great ventilation for comfort
- 2 doors for easy access
- Low weight/small pack size

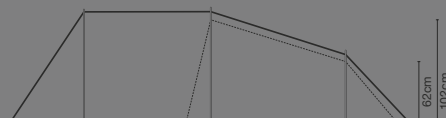

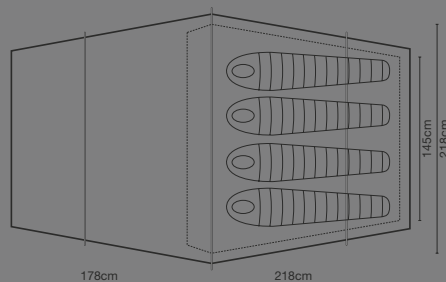

Sleeps	3
Weight	2.45kg / 2.60kg (min/max) 5lb 6oz / 5lb 11oz (min/max)
Pack Size	42cm x 17cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	6 x Black Reflective
Inner Door	Half Mesh

Code: 44CO3

NEW Coshee 4 ETC

- Huge porch with 3 porch doors
- Ideal for cycle touring or as a spacious base camp tent
- Suitable for group use
- Superflex T6 alloy poles

Sleeps	4
Weight	3.53kg / 3.9kg (min/max) 7lb 11oz / 8lb 11oz (min/max)
Pack Size	55cm x 20cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	24 x Alloy 'V' Angle
Guylines	12 x Black Reflective
Inner Door	Half Mesh

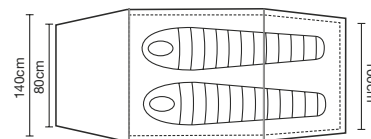

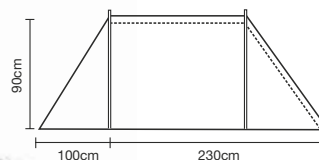

Code: 44 CO4ETC

Hoolie Series

The Hoolie series from Wild Country® is a series of great value 2 and 3 pole tunnel tents that offer low weight and simple pitching. Featuring Superflex T6 alloy poles for strength and durability, spacious inner tents, the largest porches in their class and great ventilation. They use quality Wild Country® fabrics and are designed primarily for backpacking and cycle touring. A great option for group, Duke of Edinburgh or Scout use.

Hoolie 2

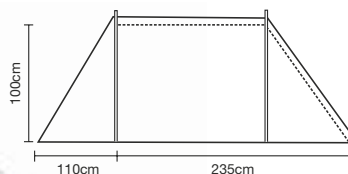

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort
- Large porch space for storage

Trisar Series

The Trisars from Wild Country® are free-standing, 3 and 4 pole semi geodesic tents that offer great protection from all but the worst weather. They feature Superflex T6 alloy poles and are inner pitch first for strength and durability. Trisars offer lightweight spacious accommodation for two or three people. Designed for year round backpacking trips, they are also extremely well suited for group, Duke of Edinburgh or Scout use.

Photographer: Carl Alvey

Trisar 2

- Free-standing design
- Can be pitched without flysheet in good weather conditions
- Alloy pegs
- Superflex alloy poles
- Lightweight and spacious
- 3-4 season use

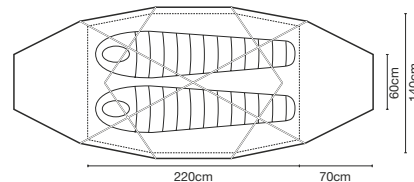

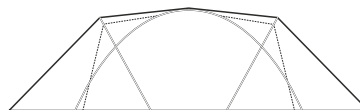

Sleeps	2
Weight	2.50kg / 2.70kg (min/max) 5lb 8oz / 5lb 15oz (min/max)
Pack Size	42cm x 16cm
Range	3-4 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	16 x Alloy 'V' Angle
Guylines	9 x Black Reflective
Inner Door	Full Mesh

Code: 44TR2

NEW Trisar 2 D

- Spacious, 2 door option of the popular Trisar style
- Suitable for most outdoor environments
- 4 season design ideal for expedition use
- Inner pitch first
- Free-standing design

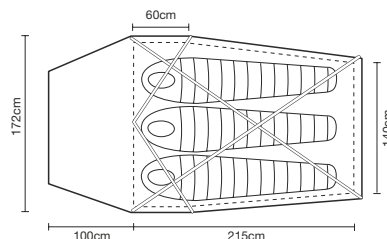

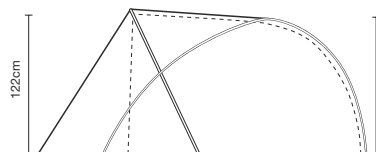

Sleeps	2
Weight	3.25kg / 3.55kg (min/max) 7lb 2oz / 7lb 13oz (min/max)
Pack Size	50cm x 18cm
Range	4 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	18 x Alloy 'V' Angle

Code: 44TR22

Trisar 3

- Free-standing design
- Can be pitched without flysheet in good weather conditions
- Alloy pegs
- Superflex Alloy Poles
- Lightweight and spacious
- Full mesh inner door

Sleeps	3
Weight	3.10kg / 3.30kg (min/max) 6lb 13oz / 7lb 4oz (min/max)
Pack Size	45cm x 18cm
Range	3-4 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	17 x Alloy 'V' Angle
Guylines	8 x Black Reflective
Inner Door	Full Mesh

Code: 44TR3

Etesian Series

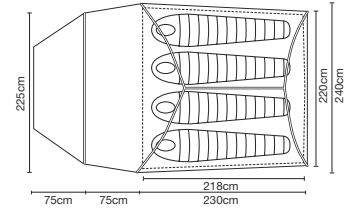

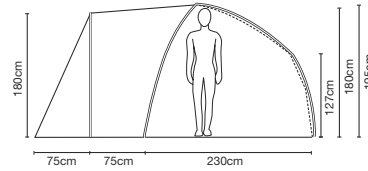

The Etesian series from Wild Country® are freestanding, simple to pitch tents that offer plenty of space without the weight. Featuring Superflex T6 alloy poles for strength and durability, inner and fly that pitch together and lots of ventilation for comfort they are perfect for bike touring and fast getaways for the weekend.

Etesian 4

- Low weight and small pack size
- Sewn in porch groundsheet
- Stable, free-standing design
- Simple and quick to pitch
- Fully taped flysheet and groundsheet
- Large porch hood

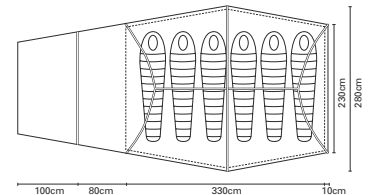

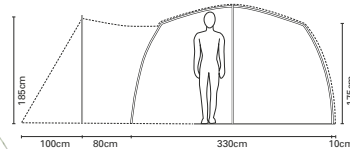

Sleeps	4
Weight	5.60kg / 6.10kg (min/max) 12lb 1oz / 13lb 4oz (min/max)
Pack Size	70cm x 24cm
Range	3 Season Family/Group
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	11mm WC Superflex Alloy
Pegs	25 x Alloy 'V' Angle
Guylines	8 x with sliders
Inner Door	Half Mesh

Code: 44ET4

Etesian 6

- Low weight and small pack size
- Sewn in porch groundsheet
- Stable, free-standing design
- Simple and quick to pitch
- Fully taped flysheet and groundsheet
- Large porch hood

Sleeps	6
Weight	7.5kg / 8.75kg (min/max) 16lb 5oz / 19lb 3oz (min/max)
Pack Size	70cm x 28cm
Range	3 Season Family/Group
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	11mm Superflex Alloy
Pegs	28 x Alloy 'V' Angle
Guylines	12 x Black Reflective
Inner Door	Full Mesh & Solid Door

Code: 44ET6

Tent Fabrics and Technology

Stormtex P4000si

Stormtex P4000si fabrics have a PU / silicon coating for maximum water resistance. Typically with mini ripstop used as the substrate, allowing a lighter weight, higher specification fabric to be offered for more demanding conditions. Being PU coated the fabric can also be taped to provide a fully waterproof seam.

Aqua Stop

Aqua Stop fabrics are designed to be strong and hardwearing underfoot, whilst maintaining a high level of water resistance.

Stormtex P4000

Stormtex P4000 fabrics, used in Wild Country® tents, have been developed to provide the best performance for the conditions the tents are designed to face. The fabrics have a PU / DWR coating to improve water resistance and allow taping, so a fully waterproof seam can be offered. Fabrics tested to the CPAI84 standard for flame retardancy are indicated as fire resistant. Different weights and weave of fabric are used to provide the best performance for specific tent models.

Footprints and Groundsheet Protectors

Groundsheet Protectors (GSP) and Footprints are designed to protect your tent groundsheet from wear and tear, moisture and dirt, and are custom-fitted for each tent model. Although we use the highest specification of waterproof and durable fabric in all of our tent groundsheets, using a GSP (sold separately) helps to prolong the life of a tent by reducing wear and tear on the fabric. Using a GSP or Footprint also keeps the tent underside clean and reduces the amount of moisture and grit that gets packed along with the tent. It is also much easier to dry and clean a GSP than the whole tent.

A Footprint covers the area of ground covered by the tent (ie the inner and porch area). A Groundsheet Protector covers the area under the inner groundsheet.

The Terra Nova® FastPack System

The FastPack system is a method of using a Footprint instead of an inner tent and is designed to trim even more weight and bulk from your rucksack. On selected Terra Nova® models, it is possible to leave the inner tent behind, if conditions permit, and use a Footprint instead to cover the floor area of the tent. A Footprint must be used if an inner tent is not, to provide the tension and anchor points required by the poles. For the tent models where the FastPack system is possible, footprints are also available in ULTRA fabric in addition to the standard footprint / groundsheet protector fabric.

	ULTRA Fabric	Standard Fabric
Laser Ultra 1/Laser Photon 1	88g / 3oz	217g / 7oz
Laser Photon 2	160g / 5oz	299g / 10oz
Laser Competition 1	93g / 3oz	236g / 8oz
Laser Competition 2	170g / 6oz	332g / 12oz
Solar Photon 1	85g / 3oz	215g / 7oz
Solar Ultra 2/Solar Photon 2		

Bivi Bags

Terra Nova® bivi bags use the very best materials, such as gas permeable GORE-TEX® Flo2 fabric. The majority of bivi bags are made in our UK factory. Whatever your trip, there is a bivi in our range to suit you.

Bivi Fabrics and Technology

Bivi Bag Fabrics

Moonlite

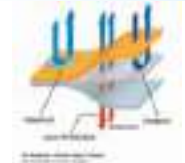

A lightweight, waterproof and highly breathable fabric. At only 55gsm, giving 10m Hydrostatic Head, and a breathability minimum of 15,000 g/sqm/24, this laminated nylon ripstop is perfect for our Moonlite bivi.

Dusk

A mid weight, waterproof and breathable fabric. With a weight of 75gsm, 10m HH, and good level of breathability, this ripstop nylon is a tough all round performer for our Survival bivi.

GORE-TEX® Flo2 fabric is highly waterproof and breathable, allowing both water vapour and O₂/CO₂ transfer from the inner to the outer, which makes it perfect for confined spaces like bivi bags.

Guaranteed waterproof flysheet.

Tents marked with this logo are guaranteed waterproof from purchase. This is achieved by factory taping the seams or by providing a waterproof hood over pole seams. Please note that these latter tents may have unprotected seams and zips, but are innovatively designed so that rainwater will not drip into or onto the inner. Our lightweight tents are designed to minimise seams.

We have a skilled UK manufacturing and repair facility at our Derbyshire base. All products in this workbook with the Union Jack logo are made here. As well as producing standard products in our range, our specialist facility produces bespoke versions of our tents, such as heavy duty and white options for contract use. Please contact us for details.

Tarps

Our comprehensive Tarp range offers lightweight summer shelter options, in a range of sizes. Suitable for use with bivi bags, they are a great minimalist alternative to a tent.

Utility Porch Tarp 2

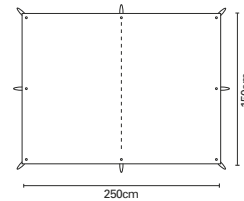

- Shelters main torso
- Adjustable height to suit weather conditions
- Ideal for use with Moonlite Bivi
- Uses Watershed Si2 fabric (same as Laser Competition)

Code: 43LMT

Tarp Ultra 1

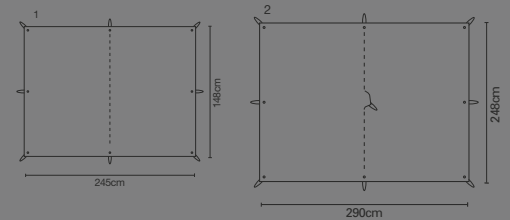

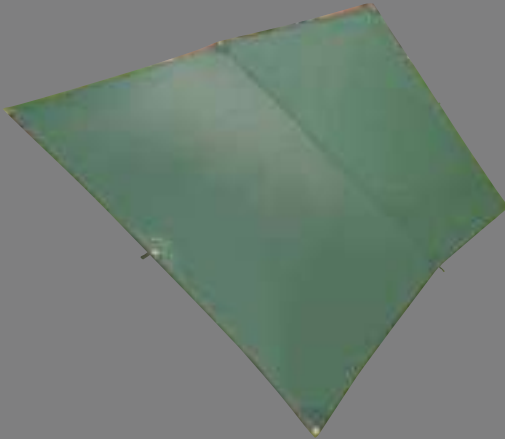

- Lightest weight tarp
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Moonlite Bivi
- Uses extremely lightweight ULTRA fabric

Code: 43TU1

Competition Tarp 1 & 2

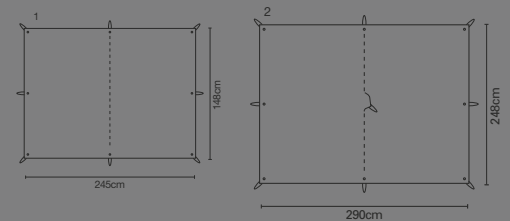

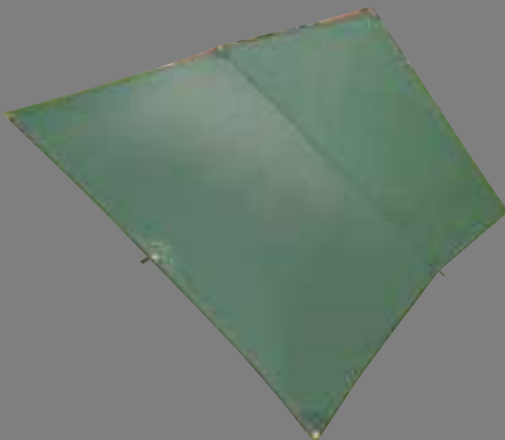

- Available in 2 size options
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Moonlite or Discovery Bivi
- Uses Watershed Si2 fabric (same as Laser Competition)

Code: 43TC1, 43TC2

Adventure Tarp 1 & 2

- Available in 2 size options
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Survival Bivi
- Uses Stormtex P4000FR fabric (same as Zephyros and Hoolie models)

Code: 43AT1, 43AT2

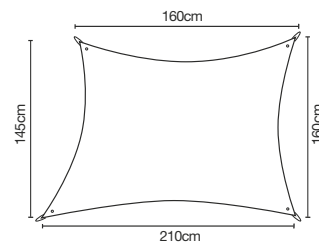

NEW Utility Porch Tarp 1

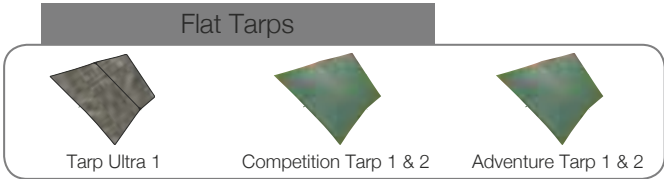

- Designed to fit Zephyros 1 and 2, Zephyros Lite 1 and 2, Laser Competition 1 and 2, Laser Photon 1 and 2
- Offers extra weather protected storage space and ventilation options
- Uses Stormtex P4000FR fabric (same as Zephyros and Hoolie models)

Code: 43UPT1

Tent Accessories

Pegs

1g Titanium

1g Ti Pegs, as seen on: Laser tents

Hold well for their size in good ground, can be doubled up and still be lighter than most other pegs.

Length 13cm.

Available in packs of 6

Code: 50PEGST11

2g Titanium

2g Ti Pegs, as seen on: Laser tents

Hold well for their size in good ground, can be doubled up and still be lighter than most other pegs.

Length 13cm.

Available in packs of 6

Code: 50PEGST12

5.5g Ti Skewers

5.5g Ti Skewers, as seen on: Ultra Quasar

Excellent lightweight yet strong peg, swap for your normal pegs to lighten your pack in one easy step.

Length 15cm.

Available in packs of 6

Code: 50PEGSTI

4g Carbon Fibre Peg

A broader alternative to Titanium skewers with a 5mm cross-sectional area. Only for use in soft ground.

Length 12.5cm.

Available in packs of 6

Code: 50PEGSCF

10g Superlite Ti 'V' Angle Peg

Increased surface area for a minimal weight penalty, great for critical load bearing points.

Length 15cm.

Available in packs of 6

Code: 50PEGT10

18g Ti 'V' Angle Peg

Great holding power for superlite travellers. Essential for pitching on sandy or loose ground.

Length 15cm.

Available in packs of 6

Code: 50PEGT18

TN Alloy Peg

TN Alloy peg - 15g, as seen on: Quasar

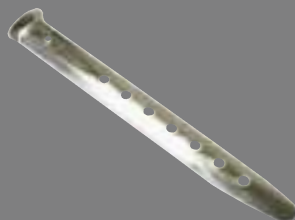

The standard peg for our expedition tents - made from high grade aluminium for continual use.

Length 17cm.

Available in packs of 6

Code: 50PEGS

SOS Stake

Sand Or Snow (SOS) peg - 35g

Huge aluminium stakes with a curved profile. 35mm wide - can be buried sideways or used traditionally.

Length 35cm.

Available in packs of 10

Code: 50SOS

Alloy Pin Peg

Alloy Pin peg - 40g

Solid aluminium 'nail' with a wide, flat head - can be driven through glacial moraine or tree roots with ease.

Length 22cm.

Available in packs of 2

Code: 50PEGP2

11g Alloy 'V' Angle Peg

11g Alloy 'V' angle peg, as seen on: Trisar

The standard peg for some of the smaller Wild Country® tents. A firm hold and beaded for extra strength.

Length 14cm.

Available in packs of 10

Code: 50PEGAV10

6g Alloy Peg

6g Alloy Peg, as seen on Laser Competition 1

A general lightweight peg, which is thicker than the Ti Skewers and therefore has greater holding power.

Length 15cm.

Available in packs of 6

Code: 50PEGA6

Sleeping Bags

Mistral Sleeping Bags

New for 2015, the Wild Country® Mistral sleeping bags are ideal for use in a variety of conditions. The hollow fibre insulation and double-layered construction on the top and bottom, is designed to fully optimise heat retention. Also featuring full length zips, zip and shoulder baffles, locking zip sliders and compressible stuff sacks, the Mistral range is the perfect addition to your camping kit.

NEW Mistral 350

- For summer and indoor use
- Zip guards to prevent snagging when zipping or unzipping
- Locking zip sliders to keep the zip in place and avoid it creeping open
- Up and over zip pull for ease of access
- Internal pocket for valuables
- Drawcord closure

Sleeping Bags Technical Information

Fill Power

Fill power is a measurement of the amount of space (expressed in cubic inches) one ounce of down will occupy when allowed to reach its maximum loft.

E.g. one ounce of 900 fill power goose down will loft to 900 cubic inches. The higher the fill power, the larger the down cluster. Larger down clusters will loft higher and trap more air which makes it warmer.

There are 2 main test methods for fill power: a US method and a European method (using the Lorch machine). Both tests involve putting down into a cylinder and compressing it with a weight. The Lorch method, which uses a larger diameter cylinder and heavier weight, is more stringent. Terra Nova uses the European Lorch method for measuring down fill power.

Terra Nova® Laser Sleeping Bags

Fabrics - Litespeed

A lightweight, air permeable fabric, designed to Terra Nova's specification. Treated with our own unique coating which balances water resistance, breathability and crucially air permeability. These three properties are seldom combined in sleeping bags. But when they are, a more comfortable sleeping environment is provided. At only 23gsm / <1oz sm this ripstop nylon is one of the lightest, fully down-proof fabrics currently available.

Fill

900 fill power goose down.

Wild Country® Mistral Sleeping Bags

Fabrics

100% Polyester 'Carbon Hex' ripstop outer with DWR finish for water repellence. Supersoft polyester lining with cosy feel.

Fill

Polyester hollow fibre insulation. The air channel created inside each fibre stores heat providing a warm layer. The lightweight insulation creates a soft handle for a cosy night's sleep.

Rucksacks

This range of rucksacks has been designed to reduce weight, allowing you to carry more of what is important or reduce the overall load, enabling you to use energy for your chosen activity instead of carrying kit. In some cases reducing the weight carried also allows you to be more balanced/feel less encumbered, and can help your overall performance.

Design features include:

- External pockets in lightweight mesh for quick access to bottles and essential gear
- Zips treated with waterproof finish
- Full length zip for easy access and packing
- Zipped hip belt pockets for 'on the go' snacks and valuables
- Integrated chest whistle
- Hydration bladder compatible - internal pocket and outlet points on both shoulders
- Compression cords to keep contents in place when running or carrying extra kit externally
- Reflective trims for safety in low light and dark conditions
- EVA foam padded straps

Laser 6

- Lightweight day use, running and day races
- Mesh back panel
- Hip pockets
- Compression cords

Weight: 182g / 7oz

Size: 6 Litre

Available in:

 Yellow

 Black

Code: 56LA6

Laser 10

- Slimline pack with body hugging design
- For cycling and longer runs
- Hydration system compatible
- Adjustable chest strap with safety whistle
- Two mesh back pockets
- Two hip belt pockets
- Compression cords
- Full length zip

Weight: 297g / 10oz
Size: 10 Litre

Rucksack Technology

ULTRA Fabric

Ultra fabric is constructed from a UHMWPE mat, laminated on each side with a very thin high performance polymer coating. The UHMWPE patented mat is up to 25% stronger and only half the weight of many traditionally woven siliconised ripstop nylons. The material also retains a higher proportion of its strength and water resistance even after UV weathering exposure. Wherever possible we bond rather than sew Ultra fabric. Bonding the seams offers higher tensile strength, lighter weight construction, and in long term tests, a high degree of resistance to UV weathering.

Litetex Fabric

Litetex is used in Laser packs and has been developed to keep pack weight down and provide protection against the elements. The polyester ripstop fabric has a DWR outer treatment and PU coated backing for maximum water repellence and stain resistance.

Trekking Poles

Terra Nova® trekking poles have been designed to be as light as possible. Their low weight means you burn less energy using them, making more energy available to enjoy your chosen activity. We use 7075 aluminium because of its high strength-to-weight ratio – it is the lightest available but extremely strong and durable.

NEW Adventure Tourer

The Adventure Tourer trekking pole has a T-bar handle designed for use as a traditional walking stick or for extra stability on the hills.

- 3 section pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and soft wrist strap
- Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
280g / 10oz	95cm / 37"	50cm / 20"

Code: 57ATP

NEW Trail Lite

Classic lightweight trekking pole which suits most people's requirements

- 3 section pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and soft wrist strap
- Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
271g / 9oz	135cm / 53"	62.5cm / 25"

Code: 57TLP

NEW Trail Elite

Folding, compact trekking pole which easily adjusts to your required length but packs down small for carrying in a rucksack.

- 3 section folding pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and soft neoprene padded wrist strap Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
274g / 9.5oz	128cm / 50"	33cm / 13"

Code: 57TEP

NEW Speed Hike

Lightweight, adjustable poles designed for nordic walking

- 2 section pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and shaped neoprene padded wrist strap. Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
259g / 9oz (each)	142cm / 56"	82cm / 32"

Code: 57SHP

NEW Unipod

Lightweight trekking pole designed for photographers, housing a camera mount in the top of the handle

- Top of handle unscrews to reveal a camera mount
- 3 section pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and soft wrist strap
- Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
310g / 11oz	160cm / 63"	66cm / 26"

Technical Information

Aluminium 7075 Poles

7075 aluminium alloy is the lightest and highest strength alloy available. Its high tensile strength allows a thinner walled, and therefore lighter, tube to be produced which has the same strength. Low weight means less energy is burned using them, making more energy available for the activity.

Clip Lock System

Clip locks provide a more secure locking mechanism than a twist system and allow the pole length to be quickly and easily altered. A screw adjustment is also included to change the strength of closure, ensuring a secure lock each time.

Tungsten Carbide End Tips

Terra Nova trekking poles have tungsten carbide end tips. Tungsten carbide is extremely hard and very abrasion resistant. These properties make it ideal for the end of trekking poles, which are constantly striking hard ground. End tips made from tungsten carbide will last longer than those made of alternative materials.

Gaiters

extremities®

The Best Protection

Our **extremities**® clothing accessories range has been synonymous with quality and performance for over 25 years, with an enviable reputation for providing the best protection in the worst conditions.

Over the years, **extremities**® hats, gloves, socks and gaiters have been put to the test by explorers and record breaking athletes as well as being tried and trusted by customers worldwide. Our commitment to the quality of the products we develop and the service we provide is also demonstrated by our ISO9001 accreditation.

From mountaineers to occasional walkers, runners and cyclists or to those simply looking for a stylish everyday accessory, **extremities**® has a product for everyone.

Sales Support

Tent pitching videos

Tent pitching videos demonstrate how to pitch a specific model but also include internal shots and highlight key features. They are designed to help customers pitch the tent correctly once they have made a purchase but are also a good pre sales tool, providing customers with a good overview of the structure of the tent and its size. The videos are hosted on our youtube channels www.youtube.com/terranovaequipment and [/wildcountrytents](http://www.youtube.com/wildcountrytents) which can be linked to your own website.

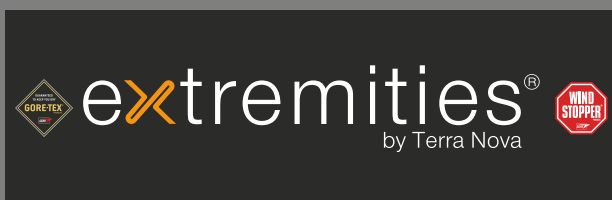

Tent specification cards

Tent specification cards, which are ideal to display with a pitched model or compile as a catalogue in store, are available for all models. These can be downloaded from www.terra-nova.co.uk on the relevant product page.
