Terra Nova® Equipment has a long history of producing some of the world's best outdoor gear, gear which is tried and tested in our laboratory and in some of the most extreme environments on the planet. Our 'Best in Class' design ethos drives an ambition to develop and use some of the best components and materials available. We are leaders in materials research and innovation, continuously looking to create and use fabrics that are unique in the outdoor industry. Our commitment to quality is demonstrated by our ISO9001 accreditation. The result is award winning products which enable outdoor enthusiasts to achieve their goals. Terra Nova® is the brand of choice for most outdoor professionals across the globe.

The Terra Nova® brand has its heritage in mountain tents including the iconic Quasar. However the last decade has seen it established as the leader in the design and development of extremely lightweight gear, including the lightest tents in the world, packs and sleeping bags.

Wild Country® camping products from Terra Nova® Equipment are designed for customers seeking the perfect combination of reliability, simplicity of use and great value. Taking some of the design and quality standards from the Terra Nova brand, products are used by everyone from the serious user to first time campers and families to escape into the outdoors.

Ultra Series

The cutting edge products within the Terra Nova ULTRA series push development boundaries with the latest technologies. Created using state of the art materials, construction methods and designs. The range includes the lightest tents in the world, devised for those who want to save every gramme of weight. Each model is tailored to provide the lightest solution possible.

Photographer: Peter MacFarlane

Laser Ultra 1

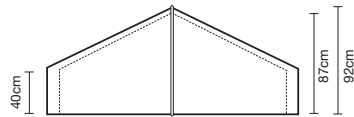

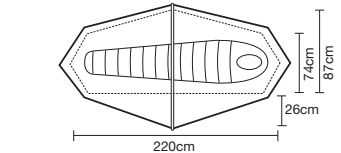

Guinness
World Record
for lightest tent
in the world

Best
in
Class

495g

- Lightest double-wall shelter in the world
- Uses our extremely light ULTRA fabric
- Can sleep two for adventure races
- Compatible with our FASTPACK system
- Tiny pack size

Sleeps	1
Weight	495g / 580g (min/max) 1lb 1oz / 1lb 4oz (min/max)
Pack Size	35cm x 8cm
Range	Adventure Racing
Flysheet	ULTRA 10000mm
Floor	ULTRA 10000mm
Poles	8.7mm DAC Alloy
Pegs	12 x Titanium 1g
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 43LU1

Minimum weight includes flysheet, inner, and main pole

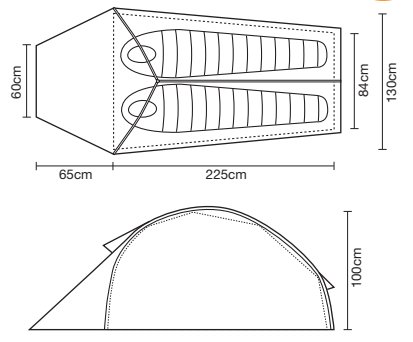

Solar Ultra 2

The lightest
2 person
free-standing
tent in the
world

- The lightest 2 person free-standing tent currently available
- Ideal for mountain marathon events or short duration backpacking trips
- Super strong, factory bonded seams
- Uses our extremely lightweight ULTRA fabric
- Compatible with our FASTPACK system

DAC

Bonded
Seams

Sleeps	2
Weight	722g / 772g (min/max) 25oz / 27oz (min/max)
Pack Size	40cm x 13cm
Range	3 Season Mountain Marathons, Short Duration Backpacking Trips
Flysheet	ULTRA 10000mm
Floor	ULTRA 10000mm
Poles	8.0/8.5mm DAC Alloy
Pegs	14 x Titanium 1g
Guylines	3 x Reflective with Clamcleats
Inner Door	Full Mesh

Code: 43SU2

Voyager Ultra 2

- The classic Voyager design in ULTRA form
- All bonded seams on flysheet
- Over 50% lighter than the standard Voyager
- Maximum stability for a minimum weight
- Half mesh inner door for better ventilation

Bonded
Seams

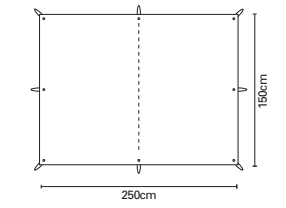

DAC

Sleeps	2
Weight	950g / 990g (min/max) 2lb 3oz / 2lb 5oz (min/max)
Pack Size	48cm x 13cm
Range	Adventure Racing
Flysheet	ULTRA 10000mm
Floor	ULTRA 10000mm
Poles	8.7mm DAC Alloy
Pegs	12 x Titanium 1g
Guylines	2 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 43VU2

Tarp Ultra 1

- Lightest weight tarp
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Moonlite Bivi
- Uses extremely lightweight ULTRA fabric

Code: 43TU1

Superlight Series

The primary design objective for the Superlight series is to create extremely lightweight products balanced with strength and durability. Terra Nova Equipment has achieved this by developing a 10 denier Nylon 6.6 flysheet fabric with a tear strength of 6kg.

Photograoher: Peter MacFarlane

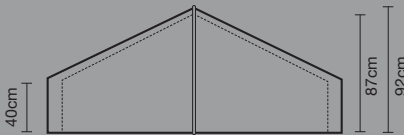

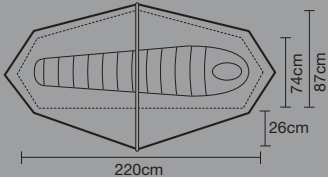

UPDATED Laser Photon 1

- The definitive single person tent for lightweight travel
- Ventilation mesh panel at each end with waterproof cover
- Small pack size
- Can sleep two for adventure races
- Compatible with our FASTPACK system
- Incredibly low weight

Pole cover included but not shown in this image

Sleeps	1
Weight	670g / 720g (min/max) 1lb 8oz / 1lb 9oz (min/max)
Pack Size	35cm x 8cm
Range	3 Season Backpacking
Flysheet	Watershed Si2 R/S 3000mm
Floor	Watershed R/S 5000mm
Poles	8.7mm DAC Alloy
Pegs	12 x Titanium 1g
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 43LPUS

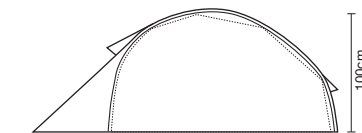

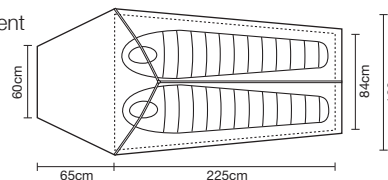

Solar Photon 2

Best
in
Class

925g

- Extremely lightweight 2-person self-supporting tent
- Compatible with our FASTPACK system
- Stable shape for use in poor weather
- Very easy to set up and use
- Front and rear fly hoods for great ventilation
- 1g Titanium pegs

DAC

Sleeps	2
Weight	925g / 975g (min/max) 2lb 1oz / 2lb 2oz (min/max)
Pack Size	40cm x 15cm
Range	3 Season Backpacking
Flysheet	Watershed Si2 R/S 3000mm
Floor	Watershed Si2 R/S 5000mm
Poles	8.5mm / 8mm DAC Y-pole
Pegs	14 x Titanium 1g
Guylines	3 x Reflective with Clamcleats
Inner Door	Full Mesh

Code: 43SP2

Lightweight Series

This series includes styles which have become the industry blue print for lightweight tent design winning numerous awards and seen worldwide. Using Watershed Si2 silicone flysheet fabrics, styles have been innovatively designed to reduce the number of seams over the inner for better weather protection.

Laser Competition 1

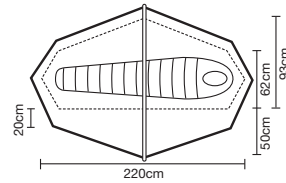

- The modern day classic single person tent
- Small pack size
- Multiple 'Best in Test' awards
- Compatible with our FASTPACK system
- High quality DAC Featherlite pole

TRAIL GEAR HALL OF FAME

DAC

Sleeps	1-2
Weight	910g / 1040g (min/max) 2lb / 2lb 5oz (min/max)
Pack Size	40cm x 12cm
Range	3 Season Backpacking
Flysheet	Watershed Si2 R/S 5000mm
Floor	Waterbloc R/S 6000mm
Poles	8.55mm DAC NFL
Pegs	10 x Alloy 15g
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

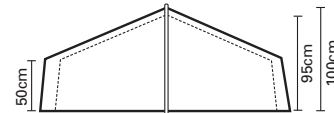

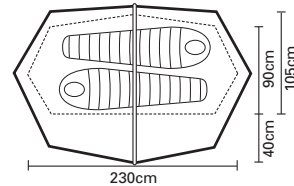

Code: 43LC

Laser Competition 2

- Great mix of super low weight and space
- Small pack size
- Two doors for improved access and ventilation
- Compatible with our FASTPACK system
- Unique flysheet ventilation system
- High quality DAC Featherlite pole

DAC

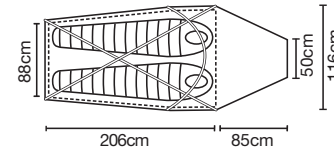

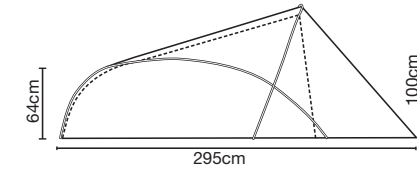

Sleeps	2
Weight	1.13kg / 1.32kg (min/max) 2lb 8oz / 2lb 14oz (min/max)
Pack Size	40cm x 16cm
Range	3 Season Backpacking
Flysheet	Watershed Si2 R/S 5000mm
Floor	Waterbloc R/S 6000mm
Poles	8.84mm DAC NFL
Pegs	10 x Alloy 15g
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 43LA

Superlite Voyager

- The classic Voyager design in superlite form
- Over 20% lighter than the standard Voyager
- Maximum stability for a minimum weight
- Half mesh inner door for better ventilation
- High quality DAC poles
- Titanium pegs

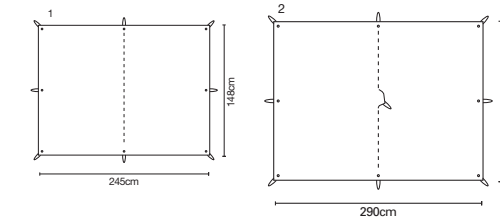

DAC

Sleeps	2
Weight	1.45kg / 1.6kg (min/max) 3lb 3oz / 3lb 8oz (min/max)
Pack Size	52cm x 13cm
Range	3-4 Season Backpacking
Flysheet	Watershed Si2 R/S 5000mm
Floor	Waterbloc R/S 6000mm
Poles	8.55mm DAC NSL
Pegs	12 x Alloy 15g
Guylines	2 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 43VYT

Competition Tarp 1 & 2

- Available in 2 size options
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Moonlite or Discovery Bivi
- Uses Watershed Si2 fabric (same as Laser Competition)

Code: 43CT1, 43CT2

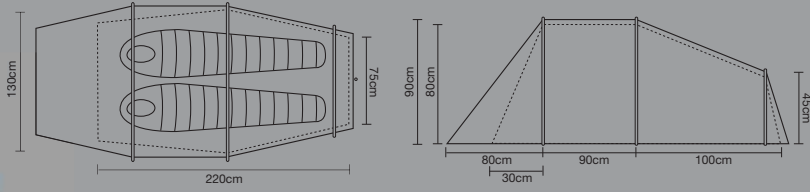

Classic Series

Tried and tested design and lightweight performance from Terra Nova tents. Models in the classic series have fully taped Watershed flysheets for complete waterproof protection.

Polar Lite 2 Micro

Best in
Test
Trail
Magazine

Available Colours:
Green Red

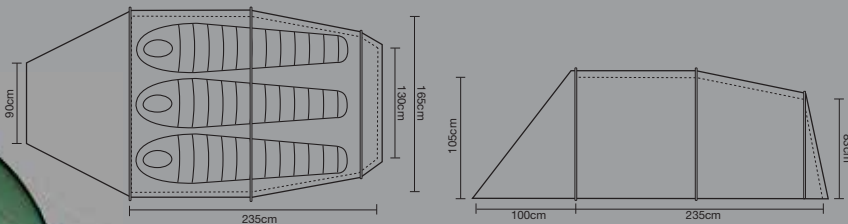

- Less than 1kg per person
- Low profile rear pole
- Three pole design for high stability
- Perfect for fast, light backpacking trips requiring extra strength
- Perfect wind cheating shape
- 8 chain zips

Sleeps	2
Weight	1.75kg / 1.95kg (min/max) 3lb 14oz / 4lb 5oz (min/max)
Pack Size	41cm x 15cm
Range	4 season snow conditions
Flysheet	Watershed R/S 6000mm
Floor	Waterbloc R/S 6000mm
Poles	8.7mm DAC Alloy
Pegs	16 Alloy 'V' Angle
Guylines	6 x Reflective
Inner Door	Half Mesh

Code: 43PL2M

Polar Lite 3

Available Colours:
Green

- Huge inner and large porch
- Protected ventilators
- Three pole design for stability
- Flexible pegging system
- Good for 4 season touring
- 8 chain zips

Sleeps	3
Weight	3.2kg / 3.4kg (min/max) 7lb 5oz / 7lb 7oz (min/max)
Pack Size	52cm x 21cm
Range	4 season snow conditions
Flysheet	Watershed R/S 6000mm
Floor	Waterbloc 10000mm
Poles	8.7mm DAC Alloy
Pegs	22 Alloy 'V' Angle
Guylines	9 x Reflective
Inner Door	Full Mesh

Code: 43PL3

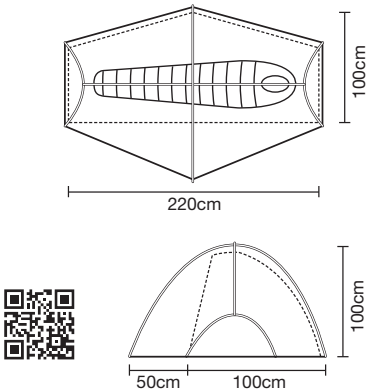

NEW

Southern Cross 1

- Completely free-standing tent
- Flysheet first pitching
- Spacious inner and porch
- 4 season performance
- Terra Nova Reflex poles

Sleeps	1
Weight	1.47kg / 1.59kg (min/max) 3lb 4oz / 3lb 8oz (min/max)
Pack Size	45cm x 14cm
Range	4 Season Backpacking
Flysheet	Watershed R/S 30D Si/PU 5000mm
Floor	Waterbloc 10000mm
Poles	8.64mm TN Reflex
Pegs	10 x Alloy 15g
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

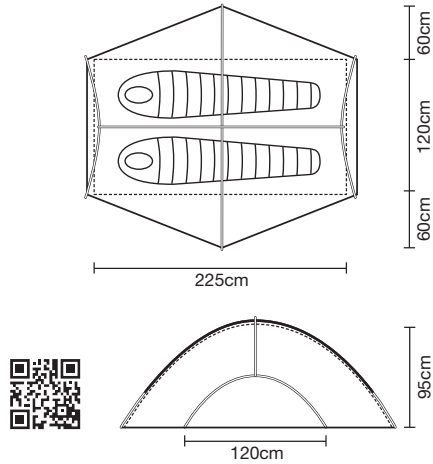

Code: 43SCR1

NEW

Southern Cross 2

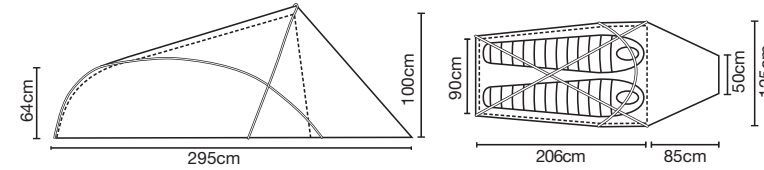

- Completely free-standing tent
- Flysheet first pitching
- Spacious inner and porches
- 2 doors and 2 porches
- 4 season performance
- Terra Nova Reflex poles

Sleeps	2
Weight	1.99kg / 2.1kg (min/max) 4lb 6oz / 4lb 10oz (min/max)
Pack Size	47cm x 16cm
Range	4 Season Backpacking
Flysheet	Watershed R/S 30D Si/PU 5000mm
Floor	Waterbloc 10000mm
Poles	8.64mm TN Reflex
Pegs	10 x Alloy 15g
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 43SCR2

Voyager

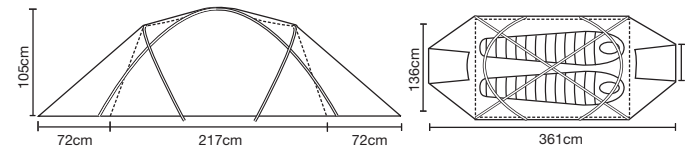

Sleeps	2
Weight	1.84kg / 1.95kg (min/max) 4lb 1oz / 4lb 5oz (min/max)
Pack Size	52cm x 13cm
Range	4 Season Trekking
Flysheet	Watershed R/S 6000mm
Floor	Waterbloc 7000mm
Poles	8.5mm DAC NSL
Pegs	12 x Aluminium Alloy
Guylines	2 x Reflective with Clamcleats
Inner Door	Full Mesh & Solid Door

Code: 41VY

- A long time favourite for backpackers and trekkers
- Aerodynamic design
- Additional guyline attachment points
- High quality DAC poles
- Fully taped fly and groundsheet

Ultra Quasar

Sleeps	2
Weight	2.83kg / 3.08kg (min/max) 6lb 4oz / 6lb 12oz (min/max)
Pack Size	54cm x 18cm
Range	4 Season
Flysheet	Watershed R/S 6000mm
Floor	Waterbloc 7000mm
Poles	8.84mm DAC Featherlite
Pegs	22 x Titanium 5.5g
Guylines	6 x Reflective with Clamcleats
Inner Door	Full Mesh & Solid Door

Code: 43UQ

- The cutting edge of low weight mountain tent design
- 25% lighter than the standard Quasar
- High quality DAC Featherlite poles
- A great all-rounder for activities from trekking to mountaineering
- Two doors and porches
- Fully taped fly and groundsheet

Endurance Series

Designed to withstand the harshest conditions where performance and reliability are paramount. The 70 denier Robic nylon ripstop flysheets provide peace of mind whether in the wilderness or on a campsite.

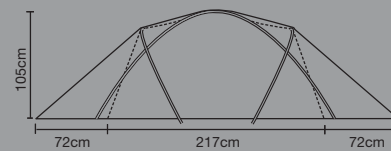

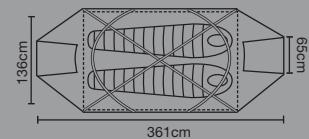

Quasar

- The original geodesic mountain tent, built for long term use
- Extremely strong, proven design
- Exceptional waterproofing and a fully taped fly and groundsheet
- Heavy duty version available

Available Colours:
■ Green ■ Red

Sleeps	2
Weight	3.80kg / 4.30kg (min/max) 8lb 6oz / 9lb 8oz (min/max)
Pack Size	54cm x 18cm
Range	4 Season Mountain
Flysheet	Watershed 8000mm
Floor	Waterbloc 10000mm
Poles	9.5mm TN Reflex
Pegs	22 x Aluminium Alloy
Guylines	6 x Reflective with Clamcleatss
Inner Door	Full Mesh & Solid Door

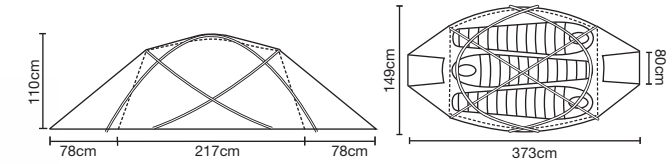

Code: 41QU
 Includes flysheet, inner, and main pole

Super Quasar

- Exceptionally strong - a great choice for base camps and exposed pitches
- Poles cross at the sides for added stability
- Exceptional waterproofing and a fully taped fly and groundsheet
- Two doors and porches
- Heavy duty version available

Available Colours:
■ Green ■ Red

Sleeps	2-3
Weight	3.90kg / 4.50kg (min/max) 8lb 9oz / 9lb 15oz (min/max)
Pack Size	54cm x 20cm
Range	4 Season Mountain
Flysheet	Watershed 8000mm
Floor	Waterbloc 10000mm
Poles	9.5mm TN Reflex
Pegs	18 x Aluminium Alloy
Guylines	6 x Reflective with Clamcleats
Inner Door	Full Mesh & Solid Door

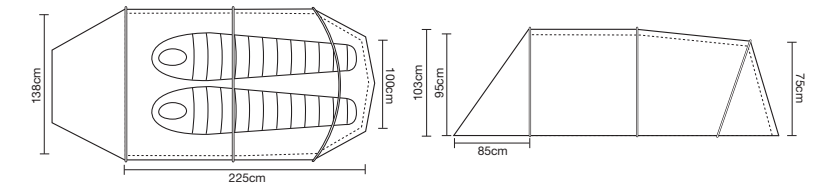

Code: 41SQ

Polar Storm 2

- The strongest and most durable tunnel tent available
- Snow valance
- 'Dead Man' style snow pegs
- Three pole design for stability
- Large pegging loops

Available Colours:
■ Green ■ Red

Sleeps	2
Weight	3.1kg / 3.45kg (min/max) 6lb 13oz / 7lb 10oz (min/max)
Pack Size	50cm x 19cm
Range	4 season snow conditions
Flysheet	Watershed 8000mm
Floor	Waterbloc 10000mm
Poles	9.5mm TN Reflex
Pegs	8 x Snowstakes, 14 Alloy 'V' Angle
Guylines	8 x Reflective
Inner Door	Half Mesh

Code: 41PS2

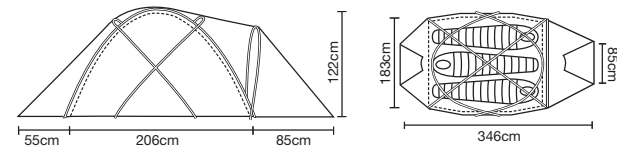

Hyperspace

Available Colours:
Green Red

Sleeps	3
Weight	4.60kg / 5.30kg (min/max) 10lb 2oz / 11lb 10oz(min/max)
Pack Size	72cm x 18cm
Range	4 Season Mountain
Flysheet	Watershed 8000mm
Floor	Waterbloc 10000mm
Poles	9.5mm TN Reflex
Pegs	18 x Aluminium Alloy
Guylines	8 x Reflective with Clamcleats
Inner Door	Full Mesh & Solid Door

Code: 41HS

- A familiar sight on expedition base camps, strong and stable
- Two doors, one with a large extended porch
- Exceptional waterproofing and a fully taped fly and groundsheet
- Heavy duty version available

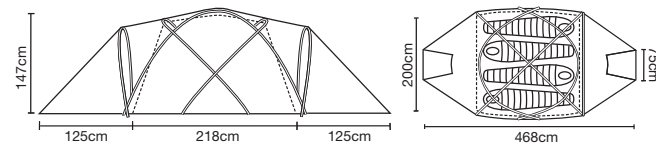

Terra Firma

Available Colours:
Green Red

Sleeps	4
Weight	6.60kg / 7.20kg (min/max) 14lb 9oz / 15lb 14oz (min/max)
Pack Size	78cm x 22cm
Range	4 Season Mountain
Flysheet	Watershed 8000mm
Floor	Waterbloc 10000mm
Poles	11mm / 9.5mm TN Reflex
Pegs	22 x Aluminium Alloy
Guylines	10 x Reflective with Clamcleats
Inner Door	Full Mesh & Solid Door

Code: 41TF

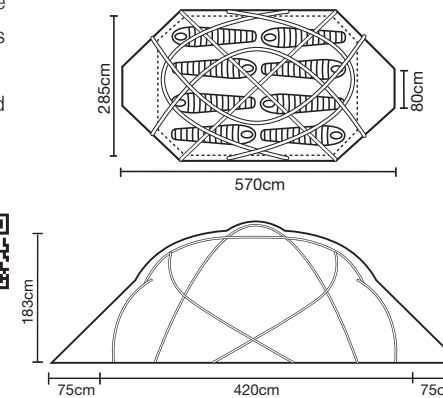

- Proven on multiple Himalayan and Polar expeditions
- Two doors, both with large extended porches
- Lots of headroom
- Exceptionally waterproof with a taped fly and groundsheet
- Heavy duty version available

Cosmos

Available Colours:
Green Red

- The ultimate tent for group and expedition use
- Two main doors and two smaller corner doors
- Closeable flysheet vents
- Exceptionally waterproof with a taped fly and groundsheet
- Heavy duty version available

Sleeps	8
Weight	12.90kg / 14.10kg (min/max) 28lb 7oz / 31lb 1oz (min/max)
Pack Size	90cm x 35cm
Range	4 Season Mountain/Base camp
Flysheet	Watershed 8000mm
Floor	Waterbloc 10000mm
Poles	13mm TN Reflex
Pegs	36 x Aluminium Alloy
Guylines	26 x Reflective with Clamcleats
Inner Door	Full Mesh & Solid Door

Hydrostatic head is tested to British Standards.*Tent comes supplied with more than one type of peg, see individual tent page for details.

The Terra Nova® FastPack System

The FastPack system is a method of using a Footprint instead of an inner tent and is designed to trim even more weight and bulk from your rucksack. On selected Terra Nova® models, it is possible to leave the inner tent behind, if conditions permit, and use a Footprint instead to cover the floor area of the tent. A Footprint must be used if an inner tent is not, to provide the tension and anchor points required by the poles. For the tent models where the FastPack system is possible, footprints are available in the standard footprint / groundsheet protector fabric.

	Standard Fabric
Laser Ultra 1/Laser Photon 1	217g / 7oz
Laser Competition 1	236g / 8oz
Laser Competition 2	215g / 7oz
Solar Ultra 2/Solar Photon 2	

Terra Nova Equipment has unrivalled expertise in the development of specialist fabrics and materials for its award winning products. The company has always been at the forefront of technical development; it produced the first PU/ Silicone coated flysheet fabric in the 1990s and more recently was the first to use bonded seam technology in commercial tent production.

Our fabrics are specified from the first polymer stage, through to final fabric production. Working together with specialist fabric manufacturers we create exclusive, bespoke fabrics which provide optimal performance for specific tent models.

How fabrics are created

Nylon and polyester fabrics start life as polymer granules. The polymer is heated and extruded to produce an ultra-fine filament. These filaments are twisted together to form a yarn, which is then used to weave the finished fabric. The thickness of each yarn is measured as 'Denier'.

1: Polymer beads 2: 1 yarn showing filament construction 3: Preparation of yarns prior to water jet weaving process

Denier

What is a denier?

Denier is a unit of measurement that is used to determine the fibre thickness of individual threads or yarns used in the creation of textiles. Textiles with a high denier count tent to be thick, sturdy and durable. Textiles with a low denier count tent to be fine and lightweight. Woven fabric used for tent construction is often referred to in terms of denier. 10 or 15 denier are amongst the lightest tent fabrics, 70 or 100 denier fabrics are amongst the most robust tent fabrics. By contrast the human hair is around 20 denier.

How is a denier measured?

Denier is defined as the mass in grammes per 9000m of yarn. Therefore 15 denier yarn weighs 15g per 9000m. The denier measurement originated from a natural reference: a single strand of silk is approximately 1 denier.

Weight and Durability

In the quest for lighter fabrics tear and tensile strength are equally important considerations. To ensure the balance of weight and performance Terra Nova Equipment develops fabrics with:

- An optimised ripstop weave
- Using the best polymer
- Construction providing the best strength to weight ratio

Materials Testing

Terra Nova Equipment tests materials in its own laboratory, in commercial test houses and in the field. A range of tests are carried out on new fabrics, existing fabrics are also subject to regular QA tests.

Tests include:

Water Impermeability

Fabric water resistance

A fabric's ability to resist water penetration is expressed as its resistance to a vertical column of water over a given surface area. This test gives the 'Hydrostatic Head' measurement and is a good indicator of the waterproofing performance of a fabric. So a fabric with a Hydrostatic Head measurement of 3000mm, can support a vertical column of water 3000mm tall, without leaking. There are several test methods, but Terra Nova Equipment use the ISO method because the applied pressure acts over a larger surface area and is therefore more severe. This gives a better representation of long term performance than a test carried out over a small area such as the Mullen test method, which is preferred in some countries.

Tear, Tensile and Bending Tests

Fabric tensile strength

Tent pole bending test

Our internal test equipment allows us to conduct comprehensive tear and tensile tests for our fabrics when new and after ageing. In addition our 4 point load pole bending apparatus, gives valuable feedback concerning the flexing, recovery and ultimate yield strength for all our tent poles.

Weathering Tests

Some of many fabrics exposed on south facing frames set at 45 degrees

In addition to long term weathering tests outdoors, Terra Nova Equipment also conducts accelerated weathering tests to ISO standards in order to give a complete picture of a fabric's performance.

UV Degradation

UV light is one of the major causes of the reduction in flysheet performance. UV light degrades fabrics by cutting the molecular bonds that hold the fabric together. The effect of UV light is reduced in a number of ways:

- UV inhibitors
- Silicone elastomer coating on the outer surface provides additional protection
- Fabric dye colours are selected to give maximum UV resistance

Tents that are subject to a greater degree of UV light, such as base camp tents, have flysheet fabrics specified to provide more UV resistance than backpacking tents which tend to spend less time pitched during daylight hours.

Longevity of fabrics

Long term weathering tests carried out in the laboratory and outside are an important part of the development process. When specifying fabrics Terra Nova Equipment not only looks at the performance of the fabric when it is new but more importantly how performance can be maintained.

Bonded Seam Construction

Terra Nova Equipment is a pioneer in the use of bonded seam technology and amongst the first to use it on a commercial scale for tents. In tests our bonded seam construction is stronger than the fabric itself. All bonded seam construction takes place in our UK factory.

Fabrics

ULTRA

Ultra fabric is constructed from a UHMWPE mat, laminated on each side with a very thin high performance polymer film. The UHMWPE patented mat is up to 25% stronger and only half the weight of many traditionally woven siliconised ripstop nylons. The material also retains a higher proportion of its strength and water resistance even after UV weathering exposure. Wherever possible we bond rather than sew ULTRA fabric. Bonding the seams offers higher tensile strength, lighter weight construction, and in long term tests, a high degree of resistance to UV weathering.

Watershed

First developed by Terra Nova Equipment in 1992, Watershed was the first silicone / PU coating hybrid for flysheets, designed to offer enhanced water resistance and withstand better the effects of UV light. Dyestuffs are treated to improve UV protection and UV coating inhibitors help reduce the degrading effects of UV light. Watershed has evolved with a specialist PU coating with extra Hydrolysis resistance, this improves water resistance and gives extra grip to seam sealing tape providing a fully waterproof seam. Used in the Classic and Endurance Series. Watershed fabric used in the Endurance series has added UV inhibitors and light stabilisers in the coating to provide greater durability.

Watershed Si2

Watershed Si2 is a silicone / silicone coated ripstop nylon flysheet fabric designed to be as light and as strong as possible, for specific end uses. Different constructions, yarn types and fabric weaves are used to provide the best performance for specific tent models. Two weights of fabric, including 10 denier Watershed Si2, are used in the Superlight and Lightweight Series of tents.

Waterbloc

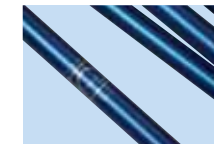

Waterbloc fabrics, generally used in Terra Nova® groundsheets, have been developed to be extremely water resistant. A highly specified PU provides maximum resistance to hydrolysis action. Nylon is widely used for Terra Nova® groundsheets and flysheets due to the excellent chemical and mechanical bond it provides with the coating systems. Different weights and weaves of fabric are used to provide the best performance for specific tent models.

Poles

DAC Poles

All DAC poles are extruded 7001 aluminium alloy. DAC have created an exclusive derivative called TH72M. After heat treatment to T8 state the finished TH72M alloy gives an excellent balance of strength and stiffness ideally suited to the rigors of tent pole use. DAC NSL are the lightest type of DAC pole. This is achieved by swaging both ends of the pole section. DAC Green Anodising used on NSL poles is a more environmentally friendly anodising process achieved through water recycling and the choice of chemicals.

Terra Nova® Reflex Poles

Reflex poles are 7001 T6 extruded aluminium poles specified by Terra Nova Equipment and exclusive to the Terra Nova® and Wild Country® brands. The diameter of the pole is selected to suit each particular tent model. The colour coded poles have pre-bent sections where appropriate to suit stress conditions and superior anodising treatments to reduce

breakages and improve durability. In independent tests Reflex poles have been shown to outperform and outlast other poles, even in extreme conditions. Pole feet are removable, allowing repairs in the field and to reduce corrosive splitting and Dura Cord shock cord won't wither in extreme conditions.

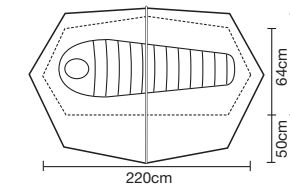

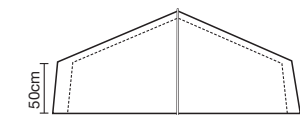

Major Development Milestones by Terra Nova Equipment

1992	Launch of Watershed – the first PU / silicone coated flysheet fabric in the industry.
2002	Key research in collaboration with Bristol University resulting in renewed focus on the anodisation processes leading to improved tent pole performance.
2004	World's first sub 1kg tent launched –Terra Nova® Laser Lite. Guinness World Record for the lightest tent.
2005	Introduction of FLO2 air permeable GORE-TEX® membrane in bivi bags.
2007-2010	3 further Guinness World Records.
2011	First to use ULTRA fabric in commercial tent production.
2012	First to use bonded seams in commercially produced tents with the launch of Terra Nova® Voyager Ultra 2.

Zephyros Series

Designed to be used as regular backpacking tents, the Zephyros 1 and 2 models give high space-to-weight ratios, at affordable prices. The Zephyros 3 and 4 Living styles add a new space dimension for cycle touring or weekend campsite use.

Zephyros 1

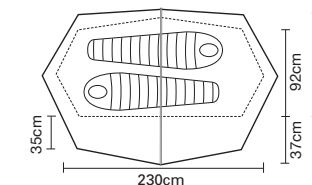

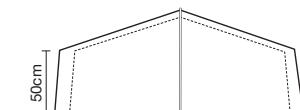

- Pitches 'as one' quickly and easily
- Stable tunnel design with external pole system
- Superflex alloy pole
- Lots of space
- Low weight and great value
- Proven design

Sleeps	1
Weight	1.41kg / 1.57kg (min/max) 3lb 2oz / 3lb 7oz (min/max)
Pack Size	52cm x 14cm
Range	3 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm WC Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	4 x Reflective with Clamcleats
Inner Door	Half Mesh

Code: 44Z1

Zephyros 2

- Two doors
- Pitches 'as one' quickly and easily
- Stable tunnel design with external pole system
- Lots of space
- Low weight and great value
- Proven design

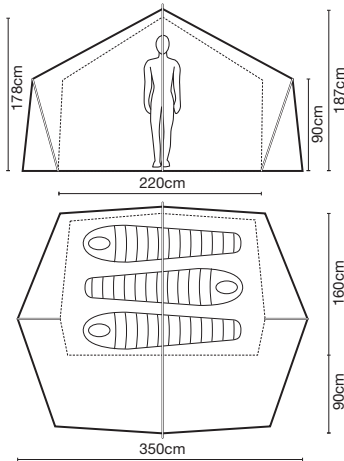

Sleeps	2
Weight	1.65kg / 1.81kg (min/max) 3lb 10oz / 4lb (min/max)
Pack Size	57cm x 14cm
Range	3 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm WC Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	4 x Black Reflective
Inner Door	Half Mesh

Code: 44Z2

Zephyros 3 Living

- Taller, 3 person version of the Zephyros 2
- Ideal for campsite use
- Nearly 180cm / 6' tall
- Small back door for better access and ventilation
- Large porch for storage and living space
- Superflex T6 alloy poles
- Small pack size

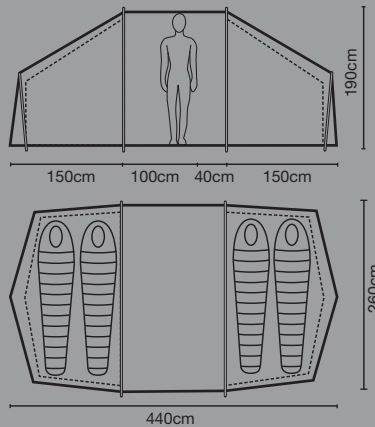

Sleeps	3
Weight	3.7kg / 4.2kg (min/max) 8lb 2oz / 9lb 4oz (min/max)
Pack Size	55cm x 22cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	14.5mm Superflex Alloy / 10.5mm Superflex Alloy
Pegs	24 Alloy 'V' Angle
Guylines	18 x Black reflective
Inner Door	Third Mesh

Code: 44Z3

NEW Zephyros 4 Living

- Vis-à-vis style 4 person tent
- Ideal for campsite use
- Maximum height of 190cm / 6' 2"
- Large porch with big door
- 18 guy points for extra stability
- Excellent ventilation
- Small back doors each end for better access
- Superflex T6 alloy poles

Sleeps	4
Weight	6.69kg / 7.1kg (min/max) 14lb 11oz / 15lb 11oz (min/max)
Pack Size	62cm x 26cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	14.5mm /10.0mm Superflex Alloy
Pegs	26 x Alloy 'V' Angle
Guylines	20 x Black Reflective
Inner Door	Half Mesh

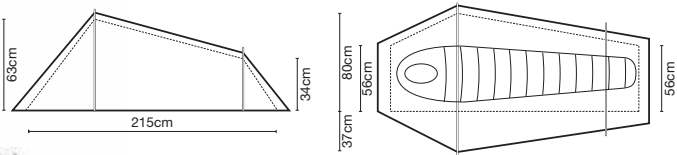

Code: 44Z4

Coshee Series

The Coshee range truly represents great value for money for occasional or first time campers. Coshee models are easy to pitch and have a small pack size making them an indispensable part of your camping equipment.

Coshee Micro

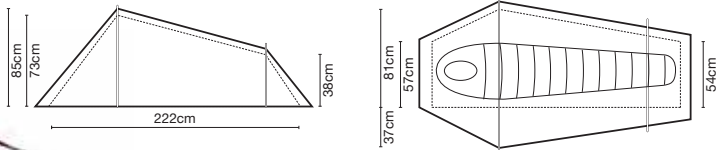

- Ideal starter tent for 1
- Use as a deluxe bivi
- Low wind cheating shape for good weather protection
- Copious porch space and 1 door
- Superflex T6 alloy poles
- Low weight/small pack size

Sleeps	1
Weight	1.2kg / 1.4kg (min/max) 2lb 10oz / 3lb 1oz (min/max)
Pack Size	36cm x 14cm
Range	2 Season
Flysheets	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	9 x Round Pin Steel
Guylines	2 x Black Reflective
Inner Door	Half Mesh

Code: 44COM

Coshee 1

- Great value
- Ideal for single occupancy backpacking trips
- Weather cheating profile
- Good size porch with 1 door
- Superflex T6 alloy poles
- Easy to pitch

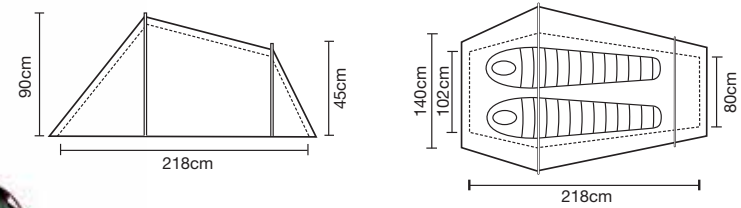

Sleeps	1
Weight	1.3kg / 1.55kg (min/max) 2lb 14oz / 3lb 5oz (min/max)
Pack Size	38cm x 14cm
Range	3 Season
Flysheets	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	9 x Round Pin Steel
Guylines	2 x Black Reflective
Inner Door	Half Mesh

Code: 44CO1

Coshee 2

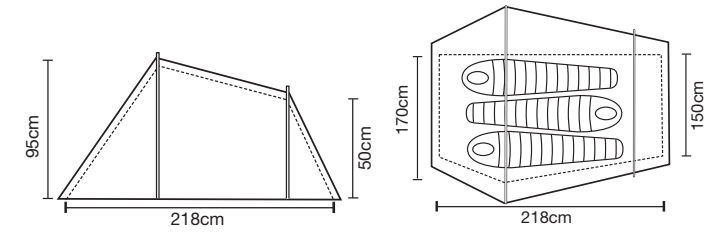

- Great value
- Weather cheating profile
- Superflex T6 alloy poles
- Great ventilation for comfort
- 2 doors for easy access
- Low weight/small pack size

Sleeps	2
Weight	1.90kg / 2.00kg (min/max) 4lb 3oz / 4lb 6oz (min/max)
Pack Size	42cm x 14cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	10 x Round Pin Steel
Guylines	6 x Black Reflective
Inner Door	Half Mesh

Code: 44CO2

Coshee 3

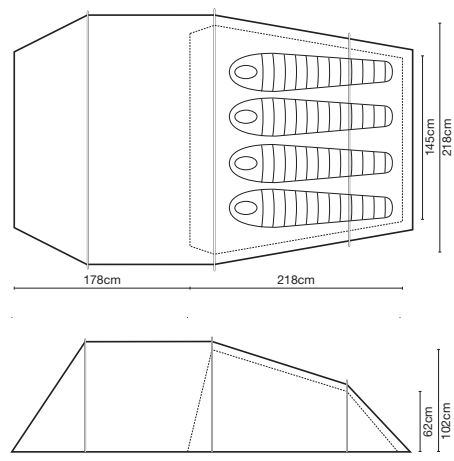

- Great value
- Weather cheating profile
- Superflex T6 alloy poles
- Great ventilation for comfort
- 2 doors for easy access
- Low weight/small pack size

Sleeps	3
Weight	2.45kg / 2.60kg (min/max) 5lb 6oz / 5lb 11oz (min/max)
Pack Size	42cm x 17cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	10 x Alloy 'V' Angle
Guylines	6 x Black Reflective
Inner Door	Half Mesh

Code: 44CO3

Coshee 4 ETC

- Huge porch with 3 porch doors
- Ideal for cycle touring or as a spacious base camp tent
- Suitable for group use
- Superflex T6 alloy poles

Sleeps	4
Weight	3.53kg / 3.9kg (min/max) 7lb 11oz / 8lb 11oz (min/max)
Pack Size	55cm x 20cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	24 x Alloy 'V' Angle
Guylines	12 x Black Reflective
Inner Door	Half Mesh

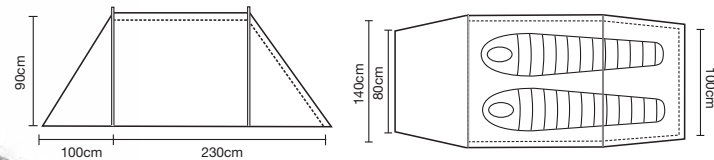

Code: 44CO4ET

Hoolie Series

The Hoolie series from Wild Country® is a series of great value 2 and 3 pole tunnel tents that offer low weight and simple pitching. Featuring Superflex T6 alloy poles for strength and durability, spacious inner tents, the largest porches in their class and great ventilation. They use quality Wild Country® fabrics and are designed primarily for backpacking and cycle touring. A great option for group, Duke of Edinburgh Award or Scout and Guide use.

Hoolie 2

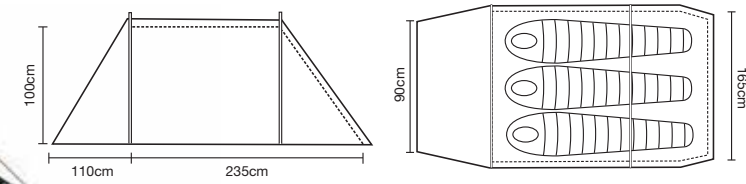

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort
- Large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

Sleeps	2
Weight	2.3kg / 2.45kg (min/max) 5lb 2oz / 5lb 7oz (min/max)
Pack Size	42cm x 15cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	13 x Alloy 'V' Angle
Guylines	8 x Black Reflective
Inner Door	Half Mesh

Code: 44H002

Hoolie 3

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort
- Large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

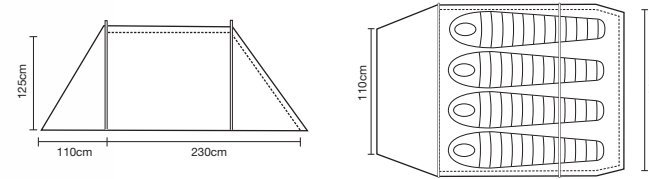

Sleeps	3
Weight	2.75kg / 3.0kg (min/max) 6lb 1oz / 6lb 10oz (min/max)
Pack Size	43cm x 17cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	15 x Alloy 'V' Angle
Guylines	10 x Black Reflective
Inner Door	Half Mesh

Code: 44H003

Hoolie 4

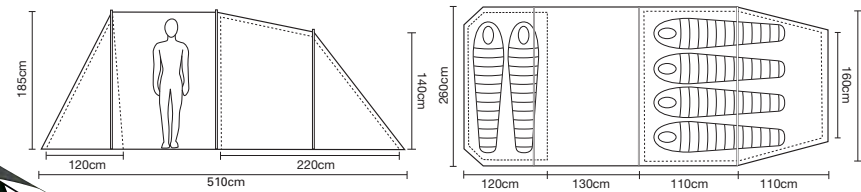

Sleeps	4
Weight	3.30kg / 3.60kg (min/max) 7lb 4oz / 7lb 15oz (min/max)
Pack Size	44cm x 17cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	9.5mm Superflex Alloy
Pegs	19 x Alloy 'V' Angle
Guylines	12 x Black Reflective
Inner Door	Half Mesh

Code: 44H004

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort
- Large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

Hoolie 6

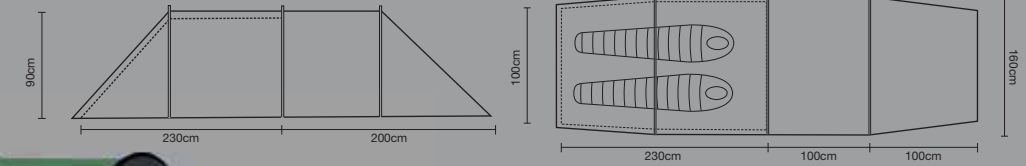

Sleeps	6
Weight	6.35kg / 6.75kg (min/max) 14lb / 14lb 14oz (min/max)
Pack Size	55cm x 23cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	11mm Superflex Alloy
Pegs	27 x Alloy 'V' Angle
Guylines	14 x Black Reflective
Inner Door	Half Mesh

Code: 44H006

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability

- Large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

Hoolie 2 ETC

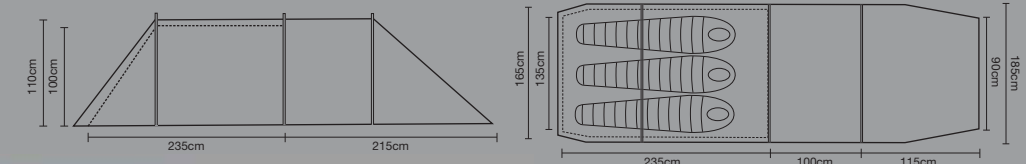

Sleeps	2
Weight	2.75kg / 3.1kg (min/max) 6lb 1oz / 6lb 13oz (min/max)
Pack Size	47cm x 18cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	16 x Alloy 'V' Angle
Guylines	12 x Black Reflective
Inner Door	Half Mesh

Code: 44H002ETC

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort
- Large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

Hoolie 3 ETC

Sleeps	3
Weight	3.35kg / 3.65kg (min/max) 7lb 6oz / 8lb 1oz (min/max)
Pack Size	46cm x 19cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	21 x Alloy 'V' Angle
Guylines	12 x Black Reflective
Inner Door	Half Mesh

Code: 44H003ETC

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort and side door
- Extra large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

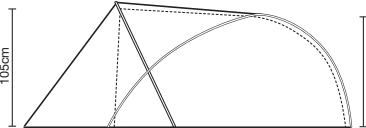

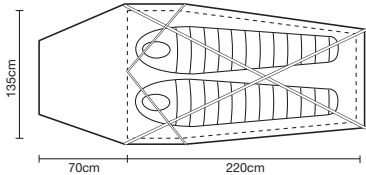

Trisar Series

The Trisars from Wild Country® are free-standing, 3 and 4 pole semi geodesic tents that offer great protection from all but the worst weather. They feature Superflex T6 alloy poles and are inner pitch first for strength and durability. Trisars offer lightweight spacious accommodation for two or three people. Designed for year round backpacking trips, they are also extremely well suited for group, Duke of Edinburgh Award or Scout and Guide use.

Photographer: Carl Alvey

Trisar 2

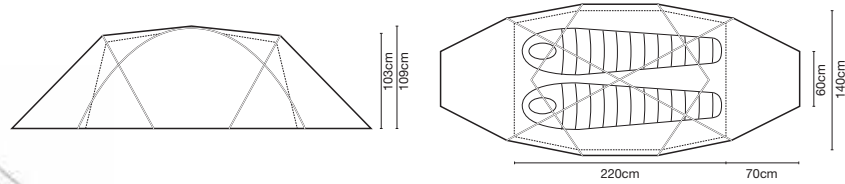

- Free-standing design
- Can be pitched without flysheet in good weather conditions
- Alloy pegs
- Superflex alloy poles
- Lightweight and spacious
- 3-4 season use

Sleeps	2
Weight	2.50kg / 2.70kg (min/max) 5lb 8oz / 5lb 15oz (min/max)
Pack Size	42cm x 16cm
Range	3-4 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	16 x Alloy 'V' Angle
Guylines	9 x Black Reflective
Inner Door	Full Mesh

Code: 44TR2

Trisar 2 D

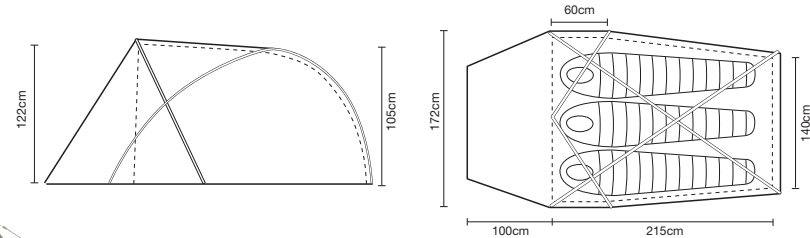

- Spacious, 2 door option of the popular Trisar style
- Suitable for most outdoor environments
- 4 season design ideal for expedition use
- Inner pitch first
- Free-standing design

Sleeps	2
Weight	3.25kg / 3.55kg (min/max) 7lb 2oz / 7lb 13oz (min/max)
Pack Size	50cm x 18cm
Range	4 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	18 x Alloy 'V' Angle
Guylines	10 x Black Reflective
Inner Door	2 x Full Mesh

Code: 44TR22

Trisar 3

- Free-standing design
- Can be pitched without flysheet in good weather conditions
- Alloy pegs
- Superflex Alloy Poles
- Lightweight and spacious
- Full mesh inner door

Sleeps	3
Weight	3.10kg / 3.30kg (min/max) 6lb 13oz / 7lb 4oz (min/max)
Pack Size	45cm x 18cm
Range	3-4 Season Backpacking
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	20 x Alloy 'V' Angle
Guylines	8 x Black Reflective
Inner Door	Full Mesh

Blizzard Series

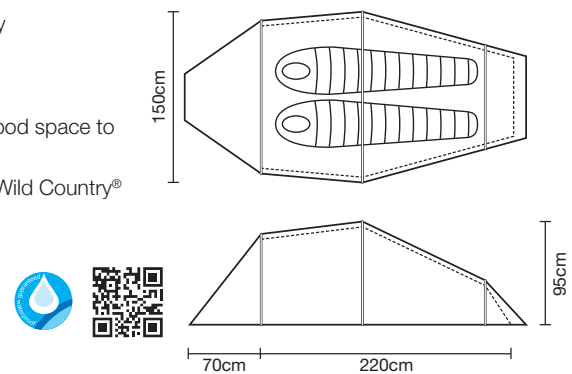

Wild Country Blizzard tents are for those who require solid all round performance, with the minimum of weight. Tunnel tent design gives a great balance between weight and space, and when coupled with the new Wild Country 30d Si / Pu flysheet technology in the Blizzard series, gives a combination that's hard to beat. With additional guy rope attachment points, low wind profiles and fully protected ventilation, Blizzard tents give an excellent option for the lightweight traveller or adventurer.

NEW Blizzard 2

- 3 pole design for high stability
- 4 season performance
- Spacious inner tent
- Lightweight model offering good space to weight ratio
- 30d Silicone / PU fabrics by Wild Country®

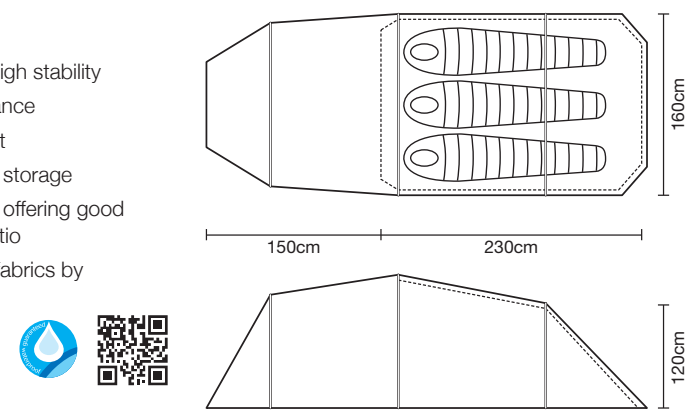

Sleeps	2
Weight	1.93kg / 2.03kg (min/max) 4lb 4oz / 4lb 8oz (min/max)
Pack Size	42cm x 15cm
Range	4 Season
Flysheet	Stormtex N4000Si
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	12 x Alloy 'V' Angle
Guylines	8 x Black Reflective
Inner Door	Half Mesh

Code: 44BL2

NEW Blizzard 3

- 3 pole design for high stability
- 4 season performance
- Spacious inner tent
- Large porch for kit storage
- Lightweight model offering good space to weight ratio
- 30d Silicone / PU fabrics by Wild Country®

Sleeps	3
Weight	2.7kg / 3.05kg (min/max) 5lb 15oz / 6lb 11oz (min/max)
Pack Size	43cm x 18cm
Range	4 Season
Flysheet	Stormtex N4000Si
Floor	Aqua Stop P6000
Poles	8.5mm Superflex Alloy
Pegs	16 x Alloy 'V' Angle
Guylines	8 x Black Reflective
Inner Door	Half Mesh

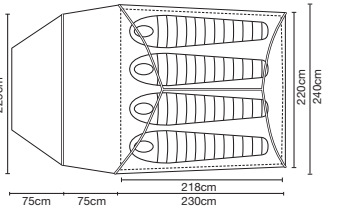

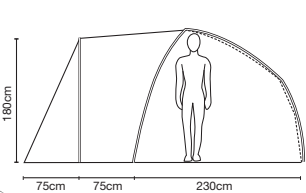

Code: 44BL3

Weekend Series

The Weekend Series of tents from Wild Country are simple to pitch styles that offer plenty of space without the weight. They provide compact accommodation for families and are ideal for couples looking for a bit of extra space with standing height. With an inner and flysheet that pitch together and a pack size that fits neatly into the boot of car with room to spare, these models are perfect for fast weekend getaways.

Etesian 4

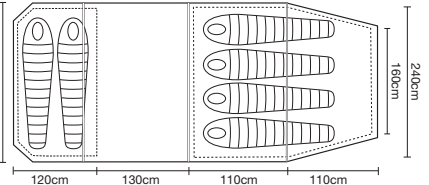

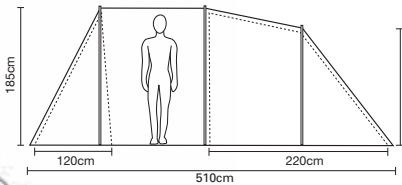

- Low weight and small pack size
- Sewn in porch groundsheet
- Stable, free-standing design
- Simple and quick to pitch
- Fully taped flysheet and groundsheet
- Large porch hood

Sleeps	4
Weight	5.60kg / 6.10kg (min/max) 12lb 1oz / 13lb 4oz (min/max)
Pack Size	70cm x 24cm
Range	3 Season Family/Group
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	11mm WC Superflex Alloy
Pegs	25 x Alloy 'V' Angle
Guylines	8 x with sliders
Inner Door	Half Mesh

Code: 44ET4

Hoolie 6

- Simple and easy to pitch
- Superflex T6 alloy poles for strength and durability
- Great ventilation for comfort
- Large porch space for storage
- Low weight/small pack size
- Fully waterproof and taped fly and groundsheet

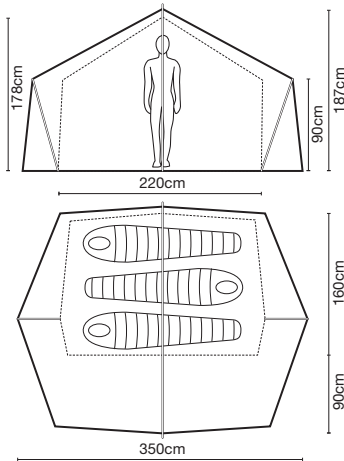

Sleeps	6
Weight	6.35kg / 6.75kg (min/max) 14lb / 14lb 14oz (min/max)
Pack Size	55cm x 23cm
Range	3 Season
Flysheet	Stormtex P4000 FR
Floor	Aqua Stop P6000
Poles	11mm Superflex Alloy
Pegs	27 x Alloy 'V' Angle
Guylines	14 x Black Reflective

Tent Fabrics and Technology

The same thought and understanding goes into the development of fabrics for use in the Wild Country® range as the Terra Nova® range.

Stormtex N4000Si

Stormtex N4000Si fabrics are nylon based with a PU / silicone coating for maximum water resistance. The 30 denier ripstop construction is 20% lighter than Stormtex P4000 fabrics allowing tent volume to be maintained but weight to be decreased, offering a better space to weight ratio. Being PU coated the fabric can be taped to provide a fully waterproof seam.

Stormtex P4000Si

Stormtex P4000si fabrics have a PU / silicone coating for maximum water resistance. Typically with mini ripstop used as the substrate, allowing a lighter weight, higher specification fabric to be offered for more demanding conditions. Being PU coated the fabric can also be taped to provide a fully waterproof seam.

Stormtex P4000

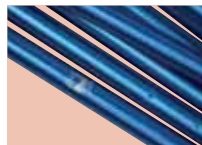

Stormtex P4000 fabrics used in Wild Country® tents, have been developed to provide the best performance for the conditions the tents are designed to face. The fabrics have a PU / DWR coating to improve water resistance and allow taping, so a fully waterproof seam can be offered. Fabrics tested to the CPAI84 standard for flame retardancy are indicated as fire resistant. Different weights and weave of fabric are used to provide the best performance for specific tent models.

Aqua Stop

Aqua Stop fabrics are designed to be strong and hardwearing underfoot, whilst maintaining a high level of water resistance.

Poles

Reflex Poles

Reflex poles are 7001 T6 extruded aluminium poles specified by Terra Nova Equipment and exclusive to the Terra Nova® and Wild Country® brands. The diameter of the pole is selected to suit each particular tent model. The colour coded poles have pre-bent sections where

appropriate to suit stress conditions and superior anodising treatments to reduce breakages and improve durability. In independent tests Reflex poles have been shown to outperform and outlast other poles, even in extreme conditions. Pole feet are removable, allowing repairs in the field and to reduce corrosive splitting and Dura Cord shock cord won't wither in extreme conditions.

Fabric being woven

Guaranteed waterproof flysheet.

Tents marked with this logo are guaranteed waterproof from purchase. This is achieved by factory taping the seams or by providing a waterproof hood over pole seams. Please note that these latter tents may have unprotected seams and zips, but are innovatively designed so that rainwater will not drip into or onto the inner. Our lightweight tents are designed to minimise seams.

We have a skilled UK manufacturing and repair facility at our Derbyshire base. All products in this workbook with the Union Jack logo are made here. As well as producing standard products in our range, our specialist facility produces bespoke versions of our tents, such as heavy duty and white options for contract use. Please contact us for details.

Footprints and Groundsheet Protectors

Groundsheet Protectors (GSP) and Footprints are designed to protect your tent groundsheet from wear and tear, moisture and dirt, and are custom-fitted for each tent model. Although we use the highest specification of waterproof and durable fabric in all of our tent groundsheets, using a GSP (sold separately) helps to prolong the life of a tent by reducing wear and tear on the fabric. Using a GSP or Footprint also keeps the tent underside clean and reduces the amount of moisture and grit that gets packed along with the tent. It is also much easier to dry and clean a GSP than the whole tent.

A Footprint covers the area of ground covered by the tent (i.e. the inner and porch area). A Groundsheet Protector covers the area under the inner groundsheet.

Bivi Bags

Terra Nova® bivi bags use the best materials to suit their use, whether it is an overnight in moderate conditions or for more extreme conditions. Whatever your trip, there is a bivi in our range to suit you.

Photographer: Dean Read

Survival Bivi

- Waterproof and breathable sleeping bag cover
- Great value
- Small pack size

Code: 52SB

Moonlite Bivi

Best
in
Class

210g

- Waterproof and breathable sleeping bag cover
- Seam sealed
- Half moon foot
- Drawstring closure
- Tiny pack size
- Mosquito net screen

Code: 52ML

Discovery Bivi

- Ideal for those seeking GORE-TEX® performance at an entry level price
- Full horizontal zip with rain flap
- Half moon foot
- GORE-TEX® upper and Waterbloc endurance groundsheet

Code: 52D

Jupiter Bivi

- For minimalist backpacking
- Single pre-curved aluminium alloy pole gives extra head room and improved ventilation
- Good ventilation makes it suitable for warmer, more humid conditions
- No-see-um mesh door to keep out bugs
- GORE-TEX® upper and Waterbloc groundsheet

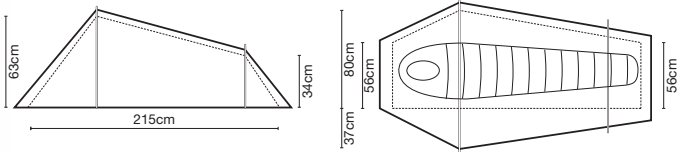

Code: 52J

Coshee Micro

- Ideal starter tent for 1
- Use as a deluxe bivi
- Low wind cheating shape for good weather protection
- Copious porch space and 1 door
- Superflex T6 alloy poles
- Low weight/small pack size

Sleeps	1
Weight	1.2kg / 1.4kg (min/max) 2lb 10oz / 3lb 1oz (min/max)

Bivi Fabrics and Technology

Bivi Bag Fabrics

Moonlite

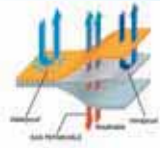

A lightweight, waterproof and highly breathable fabric. At only 55gsm, giving 10m Hydrostatic Head, and a breathability minimum of 15,000 g/sqm/24, this laminated nylon ripstop is perfect for our Moonlite bivi.

Dusk

A mid weight, waterproof and breathable fabric. With a weight of 75gsm, 10m HH, and good level of breathability, this ripstop nylon is a tough all round performer for our Survival bivi.

GORE-TEX® Flo2 fabric is highly waterproof and breathable, allowing both water vapour and O₂/CO₂ transfer from the inner to the outer, which makes it perfect for confined spaces like bivi bags.

Guaranteed waterproof flysheet.
Products marked with this logo are guaranteed waterproof from purchase. This is achieved by factory taping the seams.

We have a skilled UK manufacturing and repair facility at our Derbyshire base. All products in this workbook with the Union Jack logo are made here. As well as producing standard products in our range, our specialist facility produces bespoke versions of our tents, such as heavy duty and white options for contract use. Please contact us for details.

Tarps

Our comprehensive Tarp range offers lightweight summer shelter options, in a range of sizes. Suitable for use with bivi bags, they are a great minimalist alternative to a tent.

Utility Porch Tarp 1

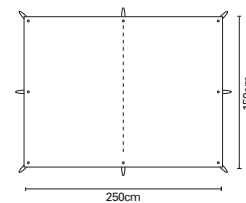

- Designed to fit Zephyros 1 and 2, Zephyros Lite 1 and 2, Laser Competition 1 and 2, Laser Photon 1 and 2
- Offers extra weather protected storage space and ventilation options
- Uses Stormtex P4000FR fabric (same as Zephyros and Hoolie models)

Code: 43UPT1

Tarp Ultra 1

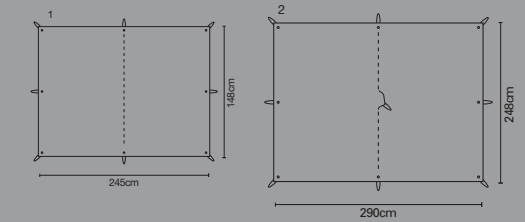

- Lightest weight tarp
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Moonlite Bivi
- Uses extremely lightweight ULTRA fabric

Code: 43TU1

Competition Tarp 1 & 2

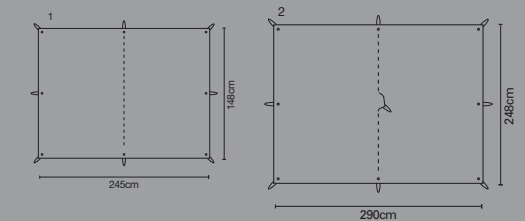

- Available in 2 size options
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Moonlite or Discovery Bivi
- Uses Watershed Si2 fabric (same as Laser Competition)

Code: 43CT1, 43CT2

Adventure Tarp 1 & 2

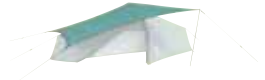

- Available in 2 size options
- Reinforced eyelet positions and webbing tapes for flexible set up
- Ideal for use with Survival Bivi
- Uses Stormtex P4000FR fabric (same as Zephyros and Hoolie models)

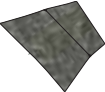

Code: 43AT1, 43AT2

Tent Accessories

Pegs

1g Titanium

1g Ti Pegs, as seen on: Laser tents
Hold well for their size in good ground, can be doubled up and still be lighter than most other pegs.
Length 13cm.
Available in packs of 6
Code: 50PEGSTI1

2g Titanium

2g Ti Pegs, as seen on: Laser tents
Hold well for their size in good ground, can be doubled up and still be lighter than most other pegs.
Length 13cm.
Available in packs of 6
Code: 50PEGSTI2

5.5g Ti Skewers

5.5g Ti Skewers, as seen on: Ultra Quasar
Excellent lightweight yet strong peg, swap for your normal pegs to lighten your pack in one easy step.
Length 15cm.
Available in packs of 6
Code: 50PEGSTI

10g Superlite Ti 'V' Angle Peg

Increased surface area for a minimal weight penalty, great for critical load bearing points.
Length 15cm.
Available in packs of 6
Code: 50PEGT10

18g Ti 'V' Angle Peg

Great holding power for superlite travellers. Essential for pitching on sandy or loose ground.
Length 15cm.
Available in packs of 6
Code: 50PEGT18

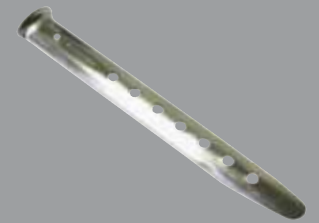

TN Alloy Peg

TN Alloy peg - 15g, as seen on: Quasar
The standard peg for our expedition tents - made from high grade aluminium for continual use.
Length 17cm.
Available in packs of 10
Code: 50PEGS

SOS Stake

Sand Or Snow (SOS) peg - 35g
Huge aluminium stakes with a curved profile. 35mm wide - can be buried sideways or used traditionally.
Length 35cm.
Available in packs of 10
Code: 50SOS

Alloy Pin Peg

Alloy Pin peg - 40g
Solid aluminium 'nail' with a wide, flat head - can be driven through glacial moraine or tree roots with ease.
Length 22cm.
Available in packs of 2
Code: 50PEGP2

11g Alloy 'V' Angle Peg

11g Alloy 'V' angle peg, as seen on: Trisar
The standard peg for some of the smaller Wild Country® tents. A firm hold and beaded for extra strength.
Length 14cm.
Available in packs of 10
Code: 50PEGAV10

Sleeping Bags

Mistral Sleeping Bags

Wild Country® Mistral sleeping bags are ideal for use in a variety of conditions. The hollow fibre insulation and double-layered construction on the top and bottom, is designed to fully optimise heat retention. Also featuring full length zips, zip and shoulder baffles, locking zip sliders and compressible stuff sacks, the Mistral range is the perfect addition to your camping kit.

Mistral 350

- For summer and indoor use
- Zip guards to prevent snagging when zipping or unzipping
- Locking zip sliders to keep the zip in place and avoid it creeping open
- Up and over zip pull for ease of access
- Internal pocket for valuables
- Drawcord closure

Sleeping Bags Technical Information

Terra Nova® Elite Sleeping Bags

Fabrics

Tightly woven Polyester Microfibre constructions of up to 320T which blend excellent down-proofing with high levels of breathability. This combination gives excellent comfort levels and minimum pack size.

Fill

600 fill power duck down.

Fill Power

Fill power is a measurement of the amount of space (expressed in cubic inches) one ounce of down will occupy when allowed to reach its maximum loft.

E.g. one ounce of 600 fill power goose down will loft to 600 cubic inches. The higher the fill power, the larger the down cluster. Larger down clusters will loft higher and trap more air which makes it warmer.

There are 2 main test methods for fill power: a US method and a European method (using the Lorch machine). Both tests involve putting down into a cylinder and compressing it with a weight. The Lorch method, which uses a larger diameter cylinder and heavier weight, is more stringent. Terra Nova uses the European Lorch method for measuring down fill power.

Wild Country® Mistral Sleeping Bags

Fabrics

100% Polyester ‘Carbon Hex’ ripstop outer with DWR finish for water repellence. Supersoft polyester lining with cosy feel.

Fill

Polyester hollow fibre insulation. The air channel created inside each fibre stores heat providing a warm layer. The lightweight insulation creates a soft handle for a cosy night’s sleep.

550 Elite

- 600 fill power duck down

Rucksacks

This range of rucksacks has been designed to reduce weight, allowing you to carry more of what is important or reduce the overall load, enabling you to use energy for your chosen activity instead of carrying kit. In some cases reducing the weight carried also allows you to be more balanced/feel less encumbered, and can help your overall performance.

Laser 6

- Lightweight day use, running and day races
- Mesh back panel
- Hip pockets
- Compression cords

Weight: 182g / 7oz
Size: 6 Litre

Available in:

- Yellow
- Black

Code: 56LA6

Design features include:

- External pockets in lightweight mesh for quick access to bottles and essential gear
- Zips treated with waterproof finish
- Full length zip for easy access and packing
- Zipped hip belt pockets for 'on the go' snacks and valuables
- Integrated chest whistle
- Hydration bladder compatible - internal pocket and outlet points on both shoulders
- Compression cords to keep contents in place when running or carrying extra kit externally
- Reflective trims for safety in low light and dark conditions
- EVA foam padded straps

Laser 10

- Slimline pack with body hugging design
- For cycling and longer runs
- Hydration system compatible
- Adjustable chest strap with safety whistle
- Two mesh back pockets
- Two hip belt pockets
- One mesh pocket on each shoulder strap
- Compression cords
- Full length zip

Weight: 297g / 10oz
Size: 10 Litre

Available in:

Code: 56LA10

Laser 20

- Day pack for adventure racing, trail running and biking
- Hydration system compatible
- Adjustable chest strap with safety whistle
- Two mesh pockets
- Two hip belt pockets
- Top zip pocket
- Compression cords

Rucksack Technology

Litetex Fabric

Litetex is used in Laser packs and has been developed to keep pack weight down and provide protection against the elements. The polyester ripstop fabric has a DWR outer treatment and PU coated backing for maximum water repellence and stain resistance.

Trekking Poles

Terra Nova® trekking poles have been designed to be as light as possible. Their low weight means you burn less energy using them, making more energy available to enjoy your chosen activity. We use 7075 aluminium because of its high strength-to-weight ratio – it is the lightest available but extremely strong and durable.

Adventure Tourer

The Adventure Tourer trekking pole has a T-bar and standard handle designed for use as a traditional walking stick or for extra stability on the hills.

- 3 section pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and soft wrist strap
- Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
280g / 10oz	135cm / 53"	63cm / 25"

Code: 57ATP

Trail Lite

Classic lightweight trekking pole which suits most people's requirements

- 3 section pole with clip locks enabling easy adjustment
- Made with 7075 aluminium alloy
- Lightweight and comfortable EVA handle and soft wrist strap
- Removable trekking basket
- Tungsten tip with protective rubber ferrule

Weight	Maximum Adjustable Length	Packed Length
279g / 9oz	137cm / 54"	64cm / 25"

Technical Information

Aluminium 7075 Poles

7075 aluminium alloy is the lightest and highest strength alloy available. Its high tensile strength allows a thinner walled, and therefore lighter, tube to be produced which has the same strength. Low weight means less energy is burned using them, making more energy available for the activity.

Clip Lock System

Clip locks provide a more secure locking mechanism than a twist system and allow the pole length to be quickly and easily altered. A screw adjustment is also included to change the strength of closure, ensuring a secure lock each time.

Tungsten Carbide End Tips

Terra Nova trekking poles have tungsten carbide end tips. Tungsten carbide is extremely hard and very abrasion resistant. These properties make it ideal for the end of trekking poles, which are constantly striking hard ground. End tips made from tungsten carbide will last longer than those made of alternative materials.

Gaiters

extremities®

The Best Protection

Our **extremities**® clothing accessories range has been synonymous with quality and performance for over 25 years, with an enviable reputation for providing the best protection in the worst conditions.

Over the years, **extremities**® hats, gloves, socks and gaiters have been put to the test by explorers and record breaking athletes as well as being tried and trusted by customers worldwide. Our commitment to the quality of the products we develop and the service we provide is also demonstrated by our ISO9001 accreditation.

From mountaineers to occasional walkers, runners and cyclists or to those simply looking for a stylish everyday accessory, **extremities**® has a product for everyone.

Sales Support

Tent pitching videos

Tent pitching videos demonstrate how to pitch a specific model but also include internal shots and highlight key features. They are designed to help customers pitch the tent correctly once they have made a purchase but are also a good pre sales tool, providing customers with a good overview of the structure of the tent and its size. The videos are hosted on our youtube channels www.youtube.com/terrannotaequipment and [/wildcountrytents](http://www.youtube.com/wildcountrytents) which can be linked to your own website.

Tent specification cards

Tent specification cards, which are ideal to display with a pitched model or compile as a catalogue in store, are available for all models. These can be downloaded from www.terra-nova.co.uk on the relevant product page or via dropbox link.

Header Boards for slat walling
64cm x 20cm

Codes: 98 HEADEXT
98 HEADEXTPLAIN
98 HEADNEL
98 HEADWC

Beach Flags

For use indoors, can be pegged down for outside use.
