AUTUMN WINTER 2026 COLLECTION

REDEFINE YOUR LIMITS

Advanced protection. Sustainable Performance.

For over 40 years, Extremities® has designed and engineered premium accessories trusted by adventurers, athletes, and explorers across the globe. From icy summits to storm-lashed trails, our gloves, hats, socks, and gaiters have been tested in the world’s harshest environments - keeping you warm, dry, and protected wherever your journey takes you.

Our focus remains the same: protection, performance, and innovation. Crafting accessories that let you redefine what's possible outdoors.

This season, we continue to build on our sustainability promise with the development and further inclusion of recycled fabrics, PFC-free waterproof technology, and materials engineered to last longer and perform better.

Whether you’re pushing limits in alpine conditions, training through winter nights, or simply exploring in the rain, Extremities® delivers head-to-hand-to-foot protection powered by technology that keeps you exploring.

Notes

58

From waterproof membranes to reflective safety systems and recycled insulation, our technologies are developed to keep you protected, comfortable, and exploring - whatever the conditions.

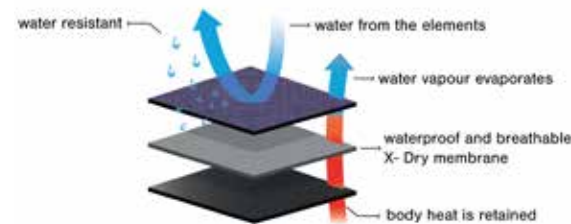

PrimaLoft® insulation delivers superior lightweight warmth and breathability, retaining heat even in the harshest wet conditions.

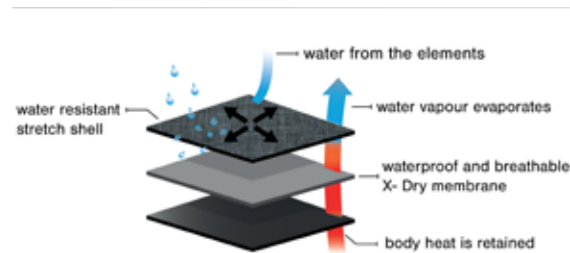

X DRY by extremities®

Our waterproof and breathable technology provides dependable all-weather protection with a Hydrostatic Head of up to 10,000mm.

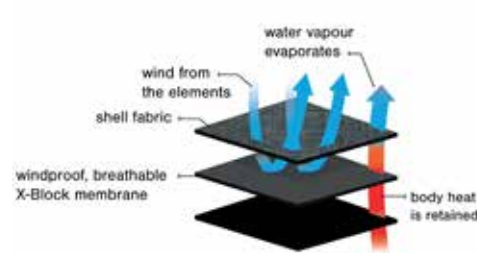

X DRYSTRETCH by extremities®

4-way stretch waterproof fabric offering complete weather protection with enhanced flexibility, comfort, and freedom of movement.

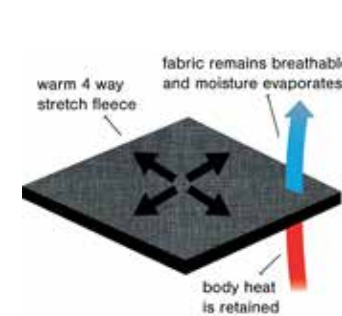

X BLOCK by extremities®

Advanced windproof fabric technology designed to block cold air while remaining breathable for active performance in harsh winds.

X THERM by extremities®

Lightweight thermal fabric that traps warmth while allowing moisture to escape - built for comfort and performance in cold-weather conditions.

X GLO by extremities®

Advanced reflective technology designed to enhance 360° visibility in low-light conditions, keeping you seen and safe on the move.

X ECO recycled content

Sustainably engineered fabrics and waterproof inserts made from recycled materials, developed to deliver high performance with a lower environmental impact.

CLO®

Made from 100% recycled fibres sourced from post-consumer plastic bottles, CLO Vivo Recycled insulation delivers exceptional warmth and breathability with a low environmental footprint, reducing waste and supporting cleaner oceans.

BLUESIGN®

A trusted standard for responsible manufacturing, bluesign® ensures materials and processes meet the strictest criteria for environmental impact, worker safety, and resource efficiency, from fibre to finished product.

MERINO WOOL

A naturally insulating, breathable, and antibacterial fibre that regulates temperature and manages moisture. Merino retains warmth even when wet, providing soft, itch-free comfort for sensitive skin.

OEKO-TEX STANDARD 100

A globally recognised certification ensuring textiles are tested and verified to be free from harmful substances; guaranteeing safety, comfort, and peace of mind from yarn to finished product.

POWER LINER

A high-quality stretch knit with excellent thermal and moisture management properties. The soft fleecy backing ensures next-to-skin comfort, while its durable construction offers reliable warmth for gloves, hats, and neckwear.

SIZE GUIDES

Glove Sizing

Place your hand on a flat surface to ensure it is at its widest and measure all the way round your palm as shown. Use the chart below to convert hand measurement to glove size.

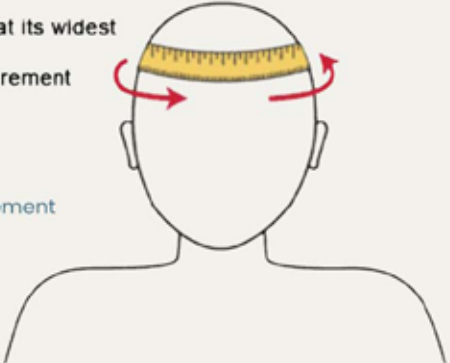

Glove Sizes	Inches	CM
Adult XS	7"-7.5"	17.5-19
Adult S	7.5"-8"	19-20
Adult M	8"-9"	20-23
Adult L	9"-9.5"	23-24
Adult XL	9.5"-10"	24-25.5
Adult XXL	10"-11"	25.5-28

Hat Sizing

Measure the circumference of your head at its widest point, just above the eyebrows and ears. Use the chart below to convert the measurement to our hat sizes.

Hat Size	Head Measurement
X-Small	54cm
Small	56cm
Medium	58cm
Large	60cm
X-Large	62cm

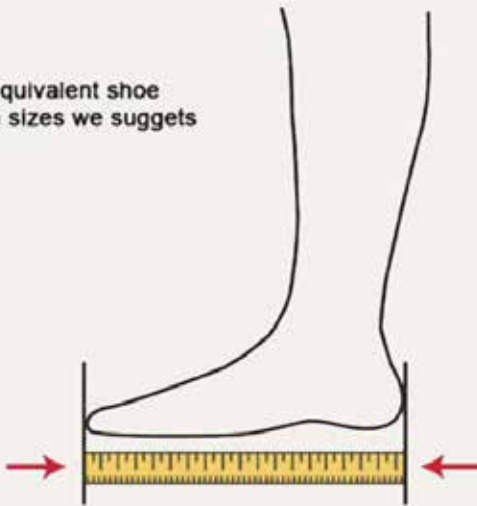

Small / Medium	56-58cm
Large / X-Large	59-62cm

Sock Sizing

Our socks are sized small to x-large, the equivalent shoe sizes are shown below. If you are between sizes we suggest you choose the smaller size.

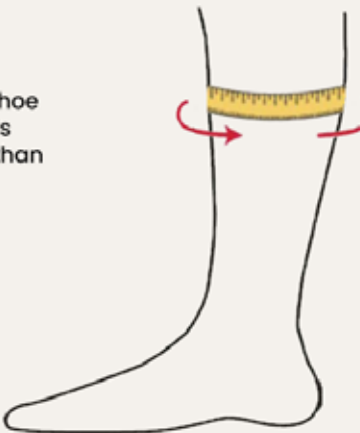

Sock Size	UK Size	Euro
Small	3-5	35-38
Medium	6-8	39-42
Large	9-11	43-46
X-Large	12+	47+

Gaiter Sizing

Our gaiters are sized S/M to L/XL, the equivalent shoe sizes and calf circumference are shown below. It is important that you make sure the calf fits rather than the shoe size.

Gaiter Size	Calf Circumference
S/M (shoe size 2.5-6.5)	Minimum: 39cm Maximum: 47.5cm
L/XL (shoe size 7-13)	Minimum: 41cm Maximum: 51cm
